

Traveling From A To B

Author: Thomas Lloyd
TheEvenMind

This is Our **Article**:

- **Traveling From A To B**

It is **About** The **Idea** of:

- **Going** from **One Place** to **Another**

We **Choose** To **Call** This:

- **Going** from **A** to **B**

This is A Common **Known Thing**:

- **Going** from **A** to **B**

Most People Have probably **Heard** of **This** Before

About Going From A to B

We All **Do**:

- Many **Tasks** During Our Day

Whether We:

- Make The Bed
- or Get Dressed for Work
- We All **Do**
- Many **Tasks** During Our Day

Many Times, when we **Do** a **task**:

- We **Face** the **idea** of
- **Going** from A to B

This **Means**:

- Getting **to** The **Goal** or **Destination** of Our **Task**
- **from** Where We **Are**

In Order To **Consider**:

- **Doing** Any **Action** or **Project**
- we must **have** some kind of **Plan**

Many **Things** that we **Do**
We Already know **How** to **Do**

An Example of A to B

An **example** of A to B might **Be**:

- **Preparing** a cup of coffee

In this example, we usually **Know**:

- How the **process** goes

What we **Mean** is:

- For **To make** a cup of coffee, we would **Go**:

*To the coffee machine
put in the coffee and the water
and then
turn on the machine*

*For a cup of coffee
after to **turn on** the machine
the machine **makes** the cup of coffee for Us*

*The coffee **comes out** in a cup
and so, then
we would **Drink** the hot cup of coffee*

The Value In The Process

As we would **Drink** the cup of coffee:

- We would **Know** that
- we had **Prepared**
- A cup of coffee

The **Knowing** of **The Completion** would **Be**:

- The **Value** In The **Process**
- **To Make** a cup of coffee

And **This** would **Be** for Most **people**:

- We would **Like** or **See** The **Value** of
- The **idea** of
- **Preparing** a cup of coffee

Making Something with A Plan

So, we can **See** in This **example**:

- The **idea** that
- In Order to **Consider**
- **Doing** Any **Action** or **Project**
- we must **Have** some kind of **Plan**

Also:

Many **Things** that we **Do**
we already **Know** How to **Do**

The **example** was:

- **Preparing** a cup of coffee

Our **Plan** for **Making** the coffee:

- We would already **Have**
- usually from
- **Times** that we had **Made** coffee Before

So, then:

- The **Plan** would **Be**
- in Our **Head** Already
- like, To **Make** a cup of coffee

This would **Be**:

- **Making Something** with **A Plan**

Seeing The A to B of It

In Our **Article** Here:

- **Traveling From A To B**
- We have **Offered**
- The **idea** of **A to B**

We can **See This** in the **example**:

- To **Make** a cup of coffee

We have **Shown** the **idea** of **A to B** Here

This would **Mean** that:

- **Wanting** To **Make** a cup of coffee
- and then
- **Choosing** To **Make** a cup of coffee
- Would **Require** Us
- To **Use A Process**

The **Process** would **Be**, Simply:

- To **Make** a cup of coffee

And The **Plan** for **This Process** would **Be**:

- Us **Knowing How**
- To **Make** a cup of coffee

*If We Know **How**
To **Make** a cup of coffee*

*And Then
Choose To **Make** a cup of coffee
We would **Use Our Plan***

The **Plan** that We **Use** would **Be**:

- Us **Knowing How**
- To **Make** a cup of coffee

*If we Know **How** To **Make** a cup of coffee
Then it is **Not So Hard** for Us*

Seeing The Idea of A to B

So, The **Idea of A to B** would **Be**:

- **Easy To See** in our **example**
- To **Make** a cup of coffee

We would **See** That:

- The **Wanting To Make** a cup of coffee
- and then
- The **Starting To Make** a cup of coffee
- would **Show The A to B**

The A would Be:

Starting To Make a cup of coffee

and

The B would Be:

Completing The Process of

Making a cup of coffee

So, in Our **Article**:

- **Traveling From A To B**
- When we
- **Start To Make** a cup of coffee
- and then
- **Finish Making** a cup of coffee
- We would Have
- **Traveled From A To B**

The A would be The Start

and

The B would be The Finish

This would Be:

Seeing The Idea of A to B

This would Be:

Our Idea of

Traveling From A To B

We would **Have Traveled** From:

- **The Start**
- To **The Finish**

- **The Finish** would **Be**
- **The Completion** of
- **To Make** a cup of coffee

So, *Traveling From A To B*

About Traveling From A To B

We Have **Offered** the **example** of:

- **To Make** a cup of coffee
- For **Understanding The Idea** of
- **Traveling From A To B**

*This example is
Only One example of
Traveling From A To B*

If We **Think About it**:

- We **All Are Performing Processes** Everyday
- All **Through** Our Day

*There Are **So Many Functions**
That We **Do** During Each Day*

*In Order To **Get Them Right**
And **Complete Them**
We Have To **Use A Process***

*The **Process** is
The **Way** that we **Do it***

*We Use A **Process** for
Each Task that we **Do**
During Our Day*

*In Order To **Get Them Right**
And **Complete Them**
We Have To **Know How** to **Do it***

*This **Knowing How To Do it**
Is **Useful** for Us*

This is:

- **Knowing About Traveling From A To B**

The Tasks Of Our Day

There are **So Many Functions**
That we **Do** During Each Day

Most of Us **Get Many Things Done Each Day**
and We **Count On Ourselves To Do it**

Each **task** that we **Do**:

- We **Start it**
- Then **Proceed with it**
- Until We **Complete it**

So Each **Task** Can Be **Viewed As**:

- **An A to B**
- We **Go from A to B** on Each **Task**

When We:

- **Start on The A**
- and then
- **Finish on The B**
- We Usually **Know** that
- We Have **Completed the task**

It Does Feel Good
To Complete Our Tasks Each Day

The Size of The A to B

Sometimes:

- The **A to B Can Be Large**

Sometimes:

Our **Tasks** in The Day **Can Be Large**

We Had Our **example** of:

- **Preparing** a cup of coffee

Well, Not Every task
is as Simple as
Preparing a cup of coffee

Sometimes:

- Our **Tasks** in The Day **Can Be Large**

An **example** would **Be**:

- If we have to
- **Go to The Store**
- like **for Food Shopping**

This **task** would **Be**:

- A **Larger task** than
- **Preparing** a cup of coffee

We have **Mentioned** that:

- In Order to **Consider**
- **Doing Any Action** or **Project**
- We must **Have** some kind of **Plan**

The **Plan** that we **Use**:

- Would Have **in it**
- The **Method** that we **Use**
- To **Complete the task**

Also, we have **Mentioned** that:

- Many **Things** that we **Do**
- We Already Know **How to Do**

So, even if a **task** for **Us** is **Large**:

- Many **Things** that we **Do**
- We Already Know **How to Do**

We have **Offered** the **example** of:

- If we have to
- **Go to The Store**
- like **for Food Shopping**

This idea of:

Going to The Store
like for Food Shopping

We would usually
Know **How to Do it**

We would have **probably**
Done it Before

Yet, we could **See** that:

- **This is A Larger Task** than
- **Preparing** a cup of coffee

Sometimes:

- Our **Tasks** in The Day **Can Be Large**

So, even if:

Going to The Store
like for Food Shopping

is A Larger task than
Preparing a cup of coffee

We usually **Tell Ourselves**
that We Can Do it

We Might have **Done it Before**

So:

- The **Size of The A to B May Vary**

The Point

We Can **See Here** that:

- The **Size of Our Tasks May Vary**

Sometimes a task May Be Modest
or Sometimes a task May Be Larger

We All Do So Many Tasks or Functions During Our Day

Many **Things** that we **Do**
We Already Know **How to Do**

And **in Our Tasks**, We Can **See** The **Idea** of:

- **Traveling From A To B**

We **Start** and Then **Finish** Each **Task** that We **Do**

No Matter **How Big** Our **Task** is:

We Could **See** that
There **Can Be** the **idea** of
Traveling From A To B

We **Start** and Then **Finish** Each **Task** that We **Do**

The A would Be **The Start**
and
The B would Be **The Finish**

We Have All **Heard of**:

- The **Idea** of **Going from A to B**

We **Call This**:

- **Traveling From A To B**

This is **The Point** of Our **Article**:

- **Traveling From A To B**

No Matter **How Big** the **task** that We **Do**
We Could **See** that
There **Can Be**
The **Idea** of
Traveling From A To B
