*Was there **development**
or **decay?***

*Hopefully not **rot***

*Heck, maybe it was
viewed as rotten*

*What **About:***

*too much television
lazy
not wanting to work
wanting free stuff always
not contributing good ideas
poor religion
envy*

Since USA **Government Did Make:**

- USA **Mental Health System**

*USA **Government:***

*Probably **Wanted**
USA **Public**
To Make **Government Work Easy***

BTW:

Christian Mischief

USA Government:

Christian Mischief
Could Have **Influenced Policy**
In The **Creation** of
USA Mental Health System

The Length Of USA Mental Health System

The USA in **1950's**:

- Was A **Long Time Ago**

Still:

- Current **Fact** is
- 90% of The **People**
- Are in **USA Mental Health System**

There Really is **No Such Thing**

Yet:

- **Since** The 1950's
- **Government** Has **Kept it That Way**

- Current **Fact** is
- 90% of The **People**
- Are in USA **Mental Health System**

The Point

So:

- Our **Article** is Called
- **Seeing Fat And Flat Here**

*In Our **Current Times:***

Here

*90% of The **People***

*Are in USA **Mental Health System***

*There Really is **No Such Thing***

So:

- The **Point** is
- USA **Government**
- **Used McCarthyism** As
- USA **Mental Health System**
- To **Turn** USA
- From **Fat Into Flat**

*Our **Article** is Called*

Seeing Fat And Flat Here

USA In The 1950's

During **Cold War Times** in USA:

- **Communist Fear**
- Was The Major **Factor**

Government:

With *that* on their *mind*
all of the time
and, a volatile *world out there*
Government wanted to stay up

Government tried to be stable:

With *containment management as Policy*

Then:

What *chance* for *escape*, diversion, or
just plain *fun*?

Is This The **How** and **Why** of:

- USA **Government**
- Used **McCarthyism** As
- USA **Mental Health System**

Make USA Mental Health System:

Make psych doctors
to just *finger them* and *drop them*?

Hey, you are *down*
No *hope* for you

Why?
Because I *say so*

USA Mental Health System Doctors

The psych doctors are *A Joke*
They *know* nothing

USA Mental Health System:

- Puts All **Clients** (Patients)
- into **Facilities**

These Are *Dark Holes*

Therefore:

- USA **Mental Health System**
- is A **Demi Monde**

- An **Underworld**
- **Dark**

The **Point Here** is **About**:

- The psych doctors

*I know those **things***

*They would just **drop someone**
without reason*

*I think that they **need** their **heads examined**
I never saw a good one*

An **Important Point** is:

- Are psych doctors **Human**?
- They have **career** in **Psych world**
- Their **focus** is on **Psych world**
- **All** of the **time**
- USA **Mental Health System**
- is A **Demi Monde**
- An **Underworld**
- **Dark**

So:

*Always **focused on Darkness**
Not knowing mind
Forcing medications on people*

*Do they **have any friends**?
I think no*

All time spent, focusing on demi monde

*Who the **fuck** can **relate to this**?
No one*

So, they are loners

*The **sad and lonely** psych doctors*

*Do they have **country club**?
No*

They are probably **Not Human**

Government Worry

We **think** that:

- USA was **viewed** as **Fat**

And, at a **time** of **communist scare**

So:

Government wondered
*Could they **depend** on these USA peoples?*

*As allies
supportive allies
partners
agents
supporters*

Did the public like them?

And, did they also **think about**
voters at the time?
Maybe

Did they want to
sort out the people
and leave only the cream?

Then, the **view** would **be:**

*The **Administration** makes **cream pie**
and so, **good times roll***

*Maybe if **Government** beat the **people down**
then **they would look good***

ENDING

We **Think** That:

- USA **Government**
- **Used** The **Ways** of **McCarthyism** As
- USA **Mental Health System**
- To **Turn** USA
- From **Fat Into Flat**

*We might call USA **Fat and Flat Now:***

*90% people in mental health system
nobody works
nobody has US Dollar*

*It's like a **standstill***

*And it is not so **pleasant** too
The way that **people act**
Like **vinegar***

So We Call Our Article:

- **Seeing Fat And Flat Here**
