About Differences

There is A **Lot** of:

- **Differences**
- Or **Variety**
- **Everywhere** That We Go

The **Point** is:

- **Not Everybody** That We Meet
- Is A **Friend**

Sometimes:

*People That We Meet
Are Not Fond of Us*

Then:

- If it
- Is **This Way**
- It is **Helpful To Know** it

It is Usually:

*No Help
To Be Kind
To A Person
Not Fond of Us*

Many Times:

*Not Everybody That We Meet
Is A Friend*

So:

- I **Write This Article**
- **About Adversary**

Sometimes:

*People That We Meet
Can Be An Adversary*

Let's Think About This Here

About Us

Often **Times:**

- We are
- **Obligated** to be **responsible**

This is:

***Responsible**
To **recognize**
Our **Adversary***

Then:

*This is **By Definition***

***Us**
Responsible
To **recognize**
Our **Adversary***

For **example:**

- If We
- **Encounter**
- An **Adversary** in Our **Day**
- Then
- It **Helps To Know** it
- **Definition Adversary**

If:

*We **Encounter An Adversary**
And
We **lose**
Then
People will say
It is **our fault***

People will **say:**

- We Did Not
- Do **Good Enough**

*Being **short***
***Not** adequate*
Not** adequate **enough

If:

- We **lose**
- And
- It **bothers them**
- Then
- **People** would say
- It is **our fault**

I **Think** that **This** is **Common**

Hence:

- The **Value** of
- To **Know**
- **Definition Adversary**

*I **Think** that:*

*This is **math***

If:

- **Someone** that We **Encounter**
- Would
- **Dog** Us
- Or **Hinder** Us
- Especially For
- A **Length of time**
- Then
- It **Helps** To **Know** it
