

A Two Out Of One Error

Author: Thomas Lloyd
TheEvenMind

This is My **Article**:

- **A Two Out Of One Error**

*It is **About**:*

*The **Idea** of
Two Out Of One*

***Trying For**
Two Out Of One*

We **Know** This **Idea**:

- **Trying For**
- **Two Out Of One**

*We **Have**:*

***Seen It Around**
Before
And So
We **Recognize it***

*The **Idea** of:*

***Trying For**
Two Out Of One*

Well:

- These **Days**
- I **See** This **Idea** Around

*I **See** it:*

*In A **Specific** Use
And
I **Think it is**
Error*

So:

- This **Idea**
- **Trying** For
- **Two Out Of One**

- In A **Specific** Use
- And
- As **Error**
- Then I **Write**
- An **Article** About it

A Specific Article:

A Two Out Of One Error

What People Are Doing

Whoa:

- Have You
- **Seen** Them **There**
- Omg

What This Means is:

*Have You **Seen***

This

Two Out Of One Error

*I **Have***

People Are:

- **Doing** This **Error**
- Even **Regularly**

And:

*I **Think** that*

*They **Use***

*A **Method** For **This***

So:

- I **See**
- The **Two Out Of One Error**
- Commonly

Pg 2

And:

*I Think that
The People Use
A Method For This*

If We:

- **See The Method**
- Then
- We Probably **See**
- That

*We Have
Seen It Around
Before
And So
We Recognize it*

The Two Out Of One Error

This is What I Mean:

*What People Are Doing
A Two Out Of One Error*

The Main Method Used

So:

- If People
- Are
- **Using A Method For**
- **A Two Out Of One Error**
- Then
- The **Main Method** Used

Method Description:

*By Name
Method Description is
Spending Two*

By:

- **Spending Two**
- As A **Method**
- I **Mean** that

- Commonly
- When People
- **Start An Action**
- They **Start** By
- **Spending Two**

Another Name For This is:

Double Spending

This:

- **Double Spending**
- Or
- **Spending Two**
- **Shows**
- Commonly
- When People
- **Start An Action**

I See:

People
Commonly
Start An Action
*By **Double Spending***
Or
Spending Two

When I:

See it
I Recognize it
Like
From Before

Starting An Action:

- By **Double Spending**
- Or
- **Spending Two**
- Really Does
- **Stand Out**

This:

Starting An Action
By Double Spending
Or

Spending Two

Is

The Main Method Used

When This **Method:**

- **Double Spending**
- Or
- **Spending Two**
- Does **Stand Out**
- Then I **Think**
- That it is
- A **Two Out Of One Error**

The Idea of

Two Out Of One

Trying For

Two Out Of One

And:

- It is
- By **Using A Method**
- **Double Spending**
- Or
- **Spending Two**

Double Spending:

At The Start of

An Action

*Is Not **Something***

That I Am

Accustomed To

Action Descriptions

When I:

- **See People**
- **Starting An Action**
- By **Double Spending**
- Or
- **Spending Two**
- It is Like
- **Too Much**

*Normal People
Have **Traditional** Ways
To **Relate To Others***

It is:

*Not **Common**
To **See**
Someone
Starting An Action
By **Double Spending**
Or
Spending Two*

*It Seems **Shocking***

For An **example**:

- A **Lunge**

I See:

- **Commonly**
- People
- **Starting An Action**
- Of
- **Double Spending**
- Or
- **Spending Two**
- As A **Lunge**

*A **Lunge**:*

*Is Like
When **Someone**
Dives At You*

*For **Me**:*

*I Don't **Like** that*

*It Seems **Shocking***

And:

- Since This
- **Spending Two**
- As A **Method**
- Is Quite **Common**

- Then
- The **Double Spending**
- Is That it is
- A **Passionate Lunge**

*What People Are **Doing**:*

Whoa

*Have You
Seen Them There
Omg*

*Have You **Seen**
That it is
A **Passionate Lunge***

Omg Yes

So:

- **Commonly**
- Under
- **Action Descriptions**
- We See
- A **Passionate Lunge**

*And The **Method**:*

*By **Name**
Method Description is
Spending Two*

*The **Double Spending**
Is That it is
A **Passionate Lunge***

I Think that:

- **Spending Two**
- It is Like
- **Too Much**

*A **Passionate Lunge**:*

*To **Start An Action**
Is Not
Always Expected*

So:

- I **Think** that
- **Spending Two**
- By **Passionate Lunge**
- It is Like
- **Too Much**

Therefore:

*The **Idea** of
Two Out Of One*

Like

*A **Passionate Lunge***

Trying For

Two Out Of One

Seems Like

*A **Two Out Of One Error***

Describing Bad Method

Omg:

- What People Are **Doing**
- Whoa
- Have You
- **Seen** Them **There**
- Omg

*Have You **Seen***

This

Behavior

I **Think** that:

- Describing **Bad Method**
- Is **Called** For

In:

- **Bad Method**
- Like
- A **Passionate Lunge**
- Trying For
- **Two Out Of One**
- It Seems **Shocking**

So it Seems:

Two Out Of One Error

A Passionate Lunge:

- As **Start An Action**
- Is **Spending Two**
- Like
- **Double Spending**

The:

Passionate Action

Seems

loaded

bulky

*even **fat***

It Seems:

Hasty

Sudden

Not Earnest

Even

Distasteful

It Seems **Shocking:**

- **A Passionate Lunge**
- Trying For
- **Two Out Of One**

A Passionate Lunge:

As Start An Action

Is Spending Two

Like

Double Spending

Expensive

Then:

- By **Description**
- Unseemly
- Not fitting
- Perhaps
- Out of place

What About:

Rude or Wrong

A Passionate Lunge:

- As **Start An Action**
- Seems **Shocking**

A Passionate Lunge:

Spending Two

Or

Double Spending

Trying For

Two Out Of One

Is Expensive

Then:

Bad Method

If Spending Two

So:

- When I **See** This
- **A Passionate Lunge**
- As **Start An Action**
- Then
- **I Think**
- **Bad Method**

I Know

Better Ways

To Meet People

If:

- **Spending Two**
- Like
- **Start An Action**
- By **Passionate Lunge**
- Then Expensive

People Can Get Tired:

Starting with Two

Starting with Double:

Like
A Passionate Lunge
As Start An Action
Is Spending Two

Starting with Two
Starting with Double

So:

Expensive

Therefore:

If Spending Two
Then
How To
Spend Two

Oneth By Measure

There is An Old Saying:

- **Oneth By Measure**

It Mean:

Like A Unit
A Proper One

For example:

- **We Know**
- One egg
- One Rose
- One Bisquit
- One Sheet

All of These:

Are examples
Oneth By Measure

Each One is One:

By Measure

One egg
One Rose
One Bisquit
One Sheet

So:

- When **Starting An Action**
- **First** Move is **First**

We **Know** this:

From Like **Sports**
Tennis
Baseball
Volleyball

When **Starting An Action**
First Move is **First**

And:

- **Starting An Action**
- With **Two**
- Or **Double**
- Is **Two**

Two is:

Got To
After One

One First
Then Two

We **Know This**

For example:

In **Sports**
Tennis
Baseball
Volleyball

First Move is **First**

Two is:

Got To
After One

One First
Then Two

So:

- **Starting An Action**
- With **Two**
- Or **Double**
- Is **Two**

Two is Double
Of One

One First
Then Two

Length Of A Passionate Lunge

If:

- **Starting An Action**
- With **Passionate Lunge**
- Is **Two**
- Or **Double**
- Then
- How **Far** Does It **Go**

Opening Move:

Passionate Lunge
As Double
Like
Two Parts
Then
It Must Go Far

Big Things
Go Far

So:

- If
- **Starting An Action**
- With **Passionate Lunge**

- **Two Or Double**
- Then
- It Must **Go Far**

Big Things
Go Far

Passionate Lunge:

- Is A **Big Thing**

Besides:

Expensive
Passionate Lunge
Must Go Far

Passionate Lunge:

- Is A **Big Thing**

Needing To:

Go Far
*It is A **Big Thing***

Passionate Lunge:

*Is A **Big Thing***
Spending Two
Like
Starting An Action

Big Chances

If:

- **Passionate Lunge**
- Is A **Big Thing**
- **Spending Two**
- Like
- **Starting An Action**
- Then
- Expensive

Plus:

Passionate Lunge
Must Go Far

It is A **Big Thing**:

- **Passionate Lunge**

So:

As **Big**
Big Chances

Not So Good

Passionate Lunge:

- Must **Go Far**
- It is A **Big Thing**
- So
- As **Big**
- **Big** Chances
- **Not So Good**

How Often:

Do They
Lunge At Us
And Miss

Omg:

What A Headache

Boo

Then:

I Have An Idea

The Good Idea

If:

- **Starting An Action**
- By **Spending Two**
- Then
- What **About**
- **One At A Time**

We All:

Grew Up
We Heard of
Single File

This is **Like**:

Walk in A Line

A Group Could
Walk in A Line

So:

- **Single File**
- **We Know**

If **This** is:

The Good Idea
Like
For Starting An Action
By Spending Two
Then
What About
One At A Time

A Best Example

This is:

- **Near The End**

Bad Method:

We Have Seen

Starting An Action:

By Spending Two
Is Expensive

If:

- **Starting Move**
- **Like**
- **Passionate Lunge**
- **Must Go Far**

- **Spending Two**
- Then
- **The Good Idea**

The Good Idea:

Is

One At A Time

Like

Single File

So:

- This
- **Good Idea**
- As
- **A Best Example**

A Best Example is:

- If Going **Far**
- Like
- **Distance Two**
- Then
- **One At A Time**
- Like
- **Single File**
- Is
- **Distance One**

One Move At A Time:

We All Know

It is Possible:

A Normal Start

I Mean:

- **A Normal Start**
- Like
- **Start An Action**

For example:

We Know

Brush the teeth

Put on the shirt
Close the door

We All **Know**:

- It is **Possible**
- A **Normal Start**

A Normal Start:

Like
Start An Action

One Move At A Time:

One At A Time
Like
Single File

Seeing Distance One

I Said that:

- A **Big Move**
- Goes
- **Distance Two**

This is:

Double

Then:

- If We Only
- **Put**
- **One Move At A Time**
- Then
- **One Move** is
- **Distance One**

If There is:

Distance Two
Like
People Try For it
Then
Distance One
Must Exist Too

So:

Distance One
Would Be
Halfway
Of Distance Two

This Makes Sense

Also:

It Could Be
Easier

So:

- The **Point** is
- Why **Try For Two**
- If
- **One** is **Easier**

Safe is A Good Thing
So Let's Be Safe

Distance One
Would Be
Halfway
Of Distance Two

ENDING

This is **Article:**

- **A Two Out Of One Error**

It Talks About:

Bad Method

I Think:

- **Bad Method**
- Is
- The **Idea** of
- **Two Out Of One**

Trying For
Two Out Of One

We *See This Idea* Around

This is:

- To **Start An Action**
- By **Spending Two**
- Like
- **Double Spending**

Passionate Lunge:

Was *Mentioned*

Then:

- The **Good Idea**
- Was **Mentioned**

One Move At A Time:

Is

Like

Start An Action

One Move At A Time

We Know:

One At A Time

Like

Single File

And:

We All Know

It is Possible

A Normal Start

A Normal Start:

Like

Start An Action

One Move At A Time

So:

- The **Point** is
- Why **Try For Two**
- If
- **One is Easier**

Safe is A **Good** Thing
So Let's Be **Safe**

Distance One
Would Be
Halfway
Of **Distance Two**

Distance Two:

Is So **Far**

We Have **Seen:**

Starting An Action
By **Spending Two**
Is **Expensive**
