# Learning What The Light Is

Author: Thomas Lloyd TheEvenMind

This is My Article:

• Learning What The Light Is

It is About:

Light Like from The Sun in The Daytime Or A Light Bulb At Night

#### We All Know:

• What Light is

Light:

Helps Us To Find Our Way Or To Illumine A Room At Night

Since We:

- Use Light
- All of The Time
- And Count On it
- For
- Things That We Need
- Then I Think That
- We Could
- Talk About Light

I Think that:

Light Could Have A Definition

# Things That We Need

#### We **Know** that:

- There Are **Things**
- That We Need in Life

#### For example:

We Need Air to breathe Food and water for nourishment As well as A bed to sleep in

We Know that:

These are things that we need

### Well:

- I **Think** that
- We Need Light Too

#### An example is:

• Light To See

Our Vision:

Depends on Light

We All Know that:

If we Can't **see things** Then We are not **sure** About **What to do** 

### I **Think** that:

• We Need Light Too

### Light To See:

Is **Something** that We **Know** Pg 2

Our Vision:

Depends on Light

So:

- This is My Article
- Learning What The Light Is

We Can:

Talk About Light Like It's Definition And Also Things That We Know About Light

I Think that:

Light is One of The Things That We Need

# **Recognizing Light**

If We Are:

- Looking for Something
- Like
- In A **Room**
- Then
- We Want Some Light Around

We Use Light:

Like in A **Room** To **See** If There is **Anything There** 

A Dark Room Is Not as Fun As A Room With Light in it So:

- If We
- Recognize Light
- Like
- In A **Room**
- It is **Refreshing**

In The Room:

Light is The Thing that Illumines it

Light:

Makes Things Available To See

We Can **See** With The **Light** 

If:

- The Light is There
- Then
- We Can See

In The Room:

Light is The Thing that Illumines it

If We **Recognize Light** Like In A **Room** It is **Refreshing** 

# **Knowing What Light Is**

### We Have:

- Known Light
- Ever Since
- We Were Little Kids

I Think that:

We Need Light Too

### Light To See:

• Is **Something** that We **Know** 

Our Vision:

Depends on Light

We Know:

What **Light** is

A I Have Said:

- Light is
- The Substance that
- Makes Things Available To See

The Light:

Illumines Things Like Makes Them Brighter

An example is:

He **Saw** The **Light** On Her **Hair** 

#### We Know:

- What **Light** is
- Because
- We See it

Without Light:

We Have A **Harder Time** To **See Things** 

So:

- Knowing What Light Is
- Is Something For Us

*The Light Has Value Pg 5* 

Because:

- Light Helps Us See
- Then
- We Know What Light is

We Know What Light is:

Because We See it

So:

The Light Has Value It Supplies Brightness

# **Talking About Light**

If:

- We Hear Someone
- Talking About Light
- Then
- We Know What They Mean

We Know What Light is

We Even:

Assume That The Light Will Be There

One Thing for Sure:

It Sure is **Good** To **Have** The **Light** 

### **Seeing The Light**

As We Say:

• We Know What Light is

We:

See it in Our Lives

All Day:

The Light Is All Around Us

The Sky The Street The Room The Town

All Day:

The Light Is All Around Us

#### And:

- We Assume
- That The Light Will Be There

So, We Are:

Seeing The Light And Liking The Light

We Know:

That The Light is There

Afterall:

- It is
- By The Light
- That
- We See The Light
- Oh my

Now:

If The **Light Wasn't** There Then We Could **Not See** Very **Much** 

It is **By** The **Light** That We **See** The **Light**  It Would Be:

So **Terrible** If We **Couldn't See** Anything

So, Let's:

Like The Light

# **Our Relationship With The Light**

Light **itself** is:

- Something That We
- Take for Granted

We:

See The Light And Assume that it Will Be There for Us

Afterall:

- It is The Light
- That illumines

The View The Setting Our Thoughts

It is The **Light** That **illumines** 

Because We See it Because it is There And it illumines Then We Know The Light

We Know The Light:

- From
- Our **Relationship** with it

Then:

We Have A **Relationship** With The **Light** 

#### However:

Just Because We Have A **Relationship** With The **Light** We Should **Not Take** The **Light** for **Granted** 

# **Taking The Light for Granted**

Even though:

- We Know The Light
- And Also
- We Like The Light
- We Still Tend
- To Take The Light for Granted

We Know that:

The **Light** Is **Useful** for Us

Especially when:

We First Wake up In The Morning We Know that The Light Is Useful for Us

### Still:

- We Tend To
- Take The Light for Granted

### Perhaps:

We Have **Known** Times When There Was **No Light** Pg 9 Still:

- We Shouldn't
- Take The Light for Granted

We Know that:

The Light Is Useful for Us The Light Has Value

# If The Light Goes Out

So:

- We Have Said that
- Being without The Light
- Is Usually
- A Harder Time

We Like The Light The Light Is Useful for Us

We Get More **Things Done** When There is **Light** 

If The Light Goes Out:

- Like in
- Temporary
- Then
- We Have A Harder Time

It is Harder:

To **Do** Things To **Manage** Things If The Light **Goes Out** 

If There is:

No Light Then it is Harder To Get Things Done It is Always **Better** If There is **Light** 

We Get More **Things Done** When There is **Light** 

We Can:

- See This
- And
- Know This
- Yet, Still

The Light Is Something That We Tend To Take for Granted

### **The Light Is Precious**

It is **Fun:** 

- To Talk About
- The Light

We Have Seen that:

We Have A **Relationship** With The **Light** 

We All **Know** The Light For So Long

#### All of Our Lives:

- We See The Light
- It Illumines Our World

The Light Is Precious for Us It is Always Better If There is Light Since:

- The Light is
- So Valuable for Us
- Then We Say that
- The Light Is Precious

The Light:

Helps Us To See Helps Us To Interpret Things

So:

The Light Is Precious

**Precious** is:

These **Things** that We Cannot **Do Without** 

We Really Do Need The Light

### Where The Light Comes From

We See that:

• The Light Is Precious

It:

Helps Us To See Helps Us To Interpret Things

We:

**Proceed** with **Things Because** of **Light** 

The Light is Useful

When We:

- See Things
- Or Feel Things
- Then
- We Like That

Pg 12

Even When We:

*Think* of *Things The Light Helps Us* 

Whether it is:

- Daytime
- Or Night
- The Light Helps Us

All of Our Lives:

The Light **Helps Us** The **Light** is Like A **Guide** 

# The Benefit Of The Light

It is **Good:** 

• To Have Light

### Light Helps Us:

• Think of Things

The Light is Like A Guide

For example:

The Light Can Help Us Finding Choices

We Use The Light:

For Knowing What To Do Or Which Way To Go

We Use The Light:

- For
- What To Choose

Light Helps Us:

How To **Go** How To **Proceed** Pg 13 We Use The Light

So:

• The Light is Like A Guide

For **Finding** Our Way For **Finding** Choices We **Use** The **Light** 

The Light is Like A Guide We Use The Light

### **Light To Know**

With Light:

• We Can Know Things

Hey:

Sometimes We See A New Thing

When We:

See A New Thing Like For The First Time We Usually Interpret it

If We:

See A New Thing Then We Usually Know that It is A New Thing

Light Helps Us To Know If Something is New For Us

With Light:

- When We See
- A New Thing

### First:

We **Recognize** it Then We **Weigh** it

We Weigh A New Thing:

• In **Deciding** About it

We Might:

Measure it Or Have An Opinion About it

Light Helps Us To Know If Something is New For Us

#### We Might:

- Weigh A New Thing
- To **Decide** if
- It is ok

We Use Light To Know

Light Helps Us:

- Interpret Things
- Like
- When We See
- A New Thing

It's Good To Be Able To See and Feel Things Like Before We Have To Decide Or Make A Decision

# ENDING

We Have Talked **About Light** *Pg 15* 

We Know What Light is:

Light Helps Us To See

We All Know:

• What Light is

Whether it is:

The Sun in The Daytime Or A Light Bulb At Night We All Know What Light is

We Know that:

There Are **Things** That We **Need** in **Life** And I **Think** that We **Need Light** Too

Light Helps Us To See

So:

- We Have Talked About
- The Value of Light

Light:

Helps Us To See To Interpret

Light:

Helps Us To Tell The Difference Between Things

### So:

• We Like The Light

It is **Harder** To Get **Things Done** If There is **No Light** Pg 16 So:

Light Can Help Us Also To Avoid Darkness Yay

We Like The Light
