

Form And The World

Author: Thomas Lloyd
TheEvenMind

This is **My Article**:

- **Form And The World**

*In The **World**:*

We **See**
Many **Forms**

Examples Are:

A House
A Tree
A Car
Even
A **Factory**

*In The **World**:*

We **See**
Many **Forms**

So:

- Since
- **All** of The **Forms**
- Are In A **Place**
- Like
- A **Setting**
- Then
- The **Forms** Are
- **In** The **World**

Our Examples:

A House
A Tree
A Car
Even
A **Factory**
Pg 1

These Are examples
Of A **Form**

Again:

We **See**
All of These **Forms**
In A **Place**
Like
A **Setting**

So:

- This is
- The **Point** of This **Article**

Since The **Forms**
Are **In** The **World**
Then I **Write** About
Form And The World

Another **View** of:

This **Title**
Is
The World and **it's Definition**

We Can **See** More **Now**

Us And The World

This **Article**:

- **Form And The World**
- Is A **Fun** Piece

It is: A Definition Piece

Look:

We **See** The **World** Everyday

We **See** The **World**:

- In **front** of **us**
- Like
- The **places** that we **go**

The **World**:

We **see** it

We **feel** it

We **hear** about it

We **See** The **World** Everyday:

Even, **All** of the **Time**

So:

- We **Know** The **World**

We **Know** it:

From **experience**

Like

We **see** it

We **feel** it

We **hear** about it

Then:

- There **is**
- **Us** And The **World**

We Probably **Spend**:

Our Whole **Life**

In The **World**

Us And The **World**

Us In The World

When We:

- **See** The **World**
- Everyday
- We **Know**
- **Us** And The **World**

And:

When We

Go **Out** into The **World**

Like An **Errand**

There Also is

Us In The **World**

We Often **See** Ourselves:

- **In The World**

We **Do**:

Relate with The **World**
Often

For example:

We **Interact** with The **World**

We **speak** with friends
We **run** errands
We **go** on a trip

We **Do**:

Relate with The **World**
Often

So:

- Because We
- **Go** to The **World** Often
- Then
- The **World** is **There**

We Don't **Go** To **Emptiness**
No

Because We:

Go to The **World** Often
Then
The **World** is **There**

We Have To **Admit**:

That The **World** is **There**

In **Order** for **Us**:

To **Go out** into The **World**
Then
The **World** is **There**

Pg 4

We:

Relate with The **World**

We **Interact** with The **World**

We **speak** with friends

We **run** errands

We **go** on a trip

We Have To **Admit**:

That The **World** is **There**

Then **This** Is:

- Our **Relationship** with The **World**

The **World** is **There**

And We **Know** That

Our Relationship with The World

Since:

- We **Do**
- **Relate** with The **World**
- **Often**
- Then
- The **World** is **There**

And:

We **Understand** that

We Have **Relationship** with it

Then We **See**:

- Our **Relationship** with The **World**

This is The **Point**:

That We **Know**

That

The **World** is **There**

We Often **Spend Time**:

Acting in The **World**

And **Thinking** of The **World**

Each **Day**:

We **Think** of The **World**

So:

- Since We
- Often **Spend Time** in The **World**
- Then I **Think** that
- We Should **Review**
- The **Definition** of The **World**

We Can **Do This**:

Review The **Definition** of The **World**
Here

In This **Article**:

Form And The **World**

We Can

Review The **Definition** of The **World**

This **is**:

Our **World**

The **World** That We **Know**

Seeing Our World

Like We **Know**:

- We **See** The **World** Everyday

I **Mean**:

Hey

This is The **World**

That We **Live** in

We **Know**:

Our **Town**

Our **Home**

Our **Friends**

Our **interests**

*This is The World
That We Live in*

So, Being **Familiar** with:

- **This**
- Our **World**
- Then
- We **Know** The **World**

*Seeing Our World
Then
We **Know** The **World***

About The World

Well:

- Since We
- **Know** The **World**
- Then We Can **Say** that
- We Are **Familiar**
- With The **World**

*This Would **Be**:*

About The World

About The World:

*We **Know** it
We **See** it
And Also
We Are **Familiar** with it*

*We Have **Seen** that:*

*We
Relate with The **World**
We **Interact** with it*

*We **Understand** that
We Have **Relationship** with it*

*The **World** is **There**
And **So**
We **Know** it*

There **is**:

Us And The World

Then **This** is:

- **About The World**

Listen:

When We **Say**
That We **Know**
About The World
It just
Seems like it is **True**

I **Mean:**

We Can
Feel that
We **Know**
About The World

Yes, We Have examples

We **Know:**

- **In The World**
- The Maps
- The Countries
- Regions
- Seas
- Forests
- Jungles

We **Know:**

About The World

We **Know** These **Things**

We Are **Familiar** with:

The Maps
The Countries
Regions
Seas
Forests
Jungles

We Know These Things

So:

*We Know
About The World*

This Article is Called:

Form And The World

The Makeup Of The World

So:

- We Are **Moving Along**

We Still Have:

Our Point

About The World:

- Is
- The **World** and it's **Definition**

We See The World:

Everyday

*We Know The World
We Are **Familiar** with it
And We Know
About The World*

Then:

- We Can **Say**
- That
- We Have
- **Reviewed**
- The **Definition** of The **World**

What About:

*The **Makeup** Of The **World***

In The **World**:

- We **See**
- The Mountains
- Valleys
- Rivers
- Towns
- The Buildings

There **Are**:

Many, Many **Things**
That We **See**
In The **World**

There Really **is**:

So **Much**
In The **World**

Our **World** is
A Very Big **Place**

The Things In The World

So:

- We **See** The **World**
- And
- That it is **Big**

Also, We **See** that:

The **World** is **Filled**
With
More Than
One Million **Objects**

There **Are**:

Many, Many **Things**
That We **See**
In The **World**

Whoa, There is A **Lot**:

All of The
Things In The **World**
Pg 10

Well:

- These **Objects**
- Like
- That We **Find** in The **World**
- Are
- The **Makeup** of The **World**

*The **World** is **Made** of:*

All** of These Many **Objects

*They **Are**:*

*It's **Parts***

The World And Structure

We **Talk** About:

- The **Makeup** of The **World**

*Whoa, There is A **Lot**:*

***All** of The
Things In The **World***

When We **Do**:

- **See** The **World**
- Like
- **All** of The **Objects** in it
- The **Makeup** of The **World**
- We **See** So **Much**

***So**:*

*The **World** is **Big***

Well:

- When **Something**
- **Gets** So **Big**
- Then
- We **Wonder**
- Does it **Have** To **Be**
- **Organized**

Remember:

When We **See**
So Many **Objects** in The **World**
They Are Not
Running Around **Crazy**
No

Somehow:

When We **Do**
See The **World**
Like
Look at it
It **Seems** to **Be** in Order

So Many **Objects** in The **World**
Seem to **Be** in Order

So Many **Objects** in The **World**
Are in Their **Place**

When We **Do:**

See The **World**
Like
Look at it
We **See** that
All of The **Objects**
Of The **World**
Are in Their **Place**

We Almost Never **See:**

Something that is
Out of **Place**

Among **All** of **The:**

Many **Things** of The **World**
The World **Seems**
To **Be** in Order

Nothing **Seems:**

Out of **Place**

Usually:

When We **See** The **World**
All of The **Things** There
Are
Just **Fine**
Where They **Are**

We **Marvel** At:

The **World** And it's **Structure**

Remember:

There **Are**
So Many **Things** in The **World**

There Are Definitely **More**
Than
One Million **Things** in The **World**

The World Is Organized

So:

- We **See** that
- There **Are**
- So Many **Things** in The **World**

They **Are:**

All in **Place**
And
Not **Bothering** Anyone

So:

- With **This**
- We Could **State** that
- The **World Is Organized**

Everything in The **World:**

Being in it's **Place**
Is
A **Part** of The **World**

The World **Seems To Be**
in **Order**

The World Seems Organized

The World Seeming Ok

With:

- So Many **Parts**
- **Still**
- The World **Seems Ok**

Somehow:

*It All Seems
To **Fit in***

All of The Things:

*In The **World**
Are
Working it out
And **Together**
Yay*

*We **See:***

*The World **Seeming Ok**
The World **Continues On***

Everything in The World:

*Is **Getting Along***

All of The Things:

*The **Objects**
Are
Co-existing Together
Living **Side by side***

*The World **is**
Seeming Ok*

The Order Of The World

All of The Things:

- In The **World**
- Are **There**

All of The:

Objects

The **Forms** of The **World**
Are Not

Dying

So Many **Things**:

Are Not **Disappearing**

These **Things**:

Exist

They **Are**:

Constant

They **Continue**:

Over **Time**
On and On

And:

These **Things**
In The **World**
Continue Over **Time**
Together

They **Are**:

In **Relationship** with
Each Other
Like
A **Whole** World

Then This **is**:

- The One **Whole** World

Our World **is**:

Made up of
The Many **Parts**
The **Objects**
Pg 15

And **All** of These **Parts** Are:

In **Order**
In **The Order**
The **Order** of The **World**
In The **Universe**

The Two Things

So, **then**:

- We Have
- **Two** Here

We **Have**:

To **Be** There
Or To **Exist**

And We **Have**:

To Be There **Together**
Like
Over **Time**

These **Are**:

- The **Two** Things

To **co exist**
And
With others

Being There
Being There **Together**
And
Over **Time**

That's **Two**

So:

This **is**
Definition of
Formal

The **Two** Things

Defining Formal

This is **What**:

- **Formal** is

To **exist**

And

To exist

With others

Formal

Formal And Our Relationships

We **Have** This:

- The **Formal**
- In Our **Relationships**

For example:

We Have **Relationships**

We **Have**:

Our **Society**

To **be** there

And to be

Verified by **others**

There are **Two** There

This is **Like**:

Us in **Society**

This is **Formal**:

- **Formality**

We **Know** This:

Our Whole **Life**

We **See** it:

In The **Entire** World

Pg 17

Our World In The Continuing

In Our **World**:

- So Many
- People, places, things

We **Know** These

We **See**:

The **Continuing**

This **is**:

- The **Two**
- **Formal**
- Like in **Relationship**

This:

Doesn't **Happen**
In One **Minute**

Our **World**:

In The **Continuing**
Is **History**

It Has **Taken** Man:

The **History** of Man
To Put
All of The **Objects** There

There Are
So Many **Things** in The **World**

There Are Definitely **More**
Than
One Million **Things** in The **World**

We Know The Formal

The **Formal**:

- Is **Two**
- To **be** there
- And to **stay** there

The **Formal** is:

Continuing
And **Verified**

This **Two**:

Is Called
Formal

In Some **Places**:

This is Called
Ordained and **Established**

Like **Us**:

Born and **Continuing**

We Can **Be**:

Valid
Like
A **Member**

Like **Us**:

In **Society**

We **Know** The **Formal**

We:

See it
Like
A **Mass** of **Things**
People

Not **All** from One **Moment**
But
Built Over **Time**

Like:

Our **Society**
We **Have**
The **Formal**
Pg 19

To **Be** There
And To Be
Verified
Like
By **Others**

So **Many**
People, places, things
And
We Have **Relationships**

It is, **then:**

Formal
Witnessed
And Verified
So
Time **Proven**

We **Know** The **Formal**

What To Do About Formal

So, in The **Formal:**

- Like in **Society**
- We **Decide**
- If **Something** is
- **Valid** for **Us**

If **Something** is:

Witnessed
And **Verified**

Our **Society** is:

Verified
Like
By **Public Opinion**

Sometimes:

We **Agree** on **Things**
Like
In World **History**

Seeing Formal

For example:

- Sometimes
- We **Agree** on **Things**
- Like
- Country **Boundaries**
- Or **Currencies**

We **Talk** About:

Races

Or **Creeds**

We **Have**:

Opinions

Rules

Regulations

We **All**:

Agree on These **Things**

That is **Two**

The **Formal**

Witnessed

And **Verified**

So **Formal**

We **See** The **Formal**

In **Agreement**:

We Say **Yes**

Verified

Like in **Society**

And:

With The **Laws** Too

Witnessed

And **Verified**

We **Choose**:

To **Have** These **Things**

*They Were **Put** There*

Agreeing On Our World

So, it **Seems** that:

- We All **Have A World**
- One that
- We **Agree On**

*Sure, it May Not **Be**:*

Perfect

*But We **Agree** on it
Nonetheless*

In Our **World**:

- The **Objects**
- Are **Made**

*They Are **Put** There*

*They **All**:*

Rise When New

And Then

*We **Decide***

*If They Are **Verified***

When We:

See This

Like

*The **Objects** in The **World***

*We **Decide***

*If They Are **Verified***

*If **So**:*

Then

*We **Agree***

*Or **Allow** Them*

*To **Be** There*

*The Many **Objects***

This is:

Verified

So:

- When We **See** These **Two**
- **Witnessed**
- And **Verified**
- We Have
- The **Agreement**

With:

*These **Two**
We **Have**
The **Formal***

*It Takes **Two**:*

*The **Formal***

Formal And Forms

So:

- With **Definition** of **Formal**
- The **Two**
- Then
- We **See**
- The Many **Objects** in The **World**

*These Are **All**:*

Forms

And:

*Since We **See** Them
Put There
Over **Time**
Then
This is **Agreement***

For example:

*We **See**
Society
A **Construct***

The **Society**:

Was **Built** Over **Time**

All of **These**:

Forms in The **World**
Are **Constructs**

Someone **Made** Them

Many Are:

Man Made

Then:

- The **Formal** is
- **Centered** on **Forms**

Forms Are Like:

The **Objects** in The **World**
The **Objects** that **Exist**

We **See** The:

Formal And **Forms**

The Building Of The World

All of The:

- **Objects** in The **World**
- Are Both
- **Name** and **Form**

The **Objects**:

That We **See**
Are Both
Name and **Form**

They All **Have**:

A **Name**
Attached To Their **Form**

Examples Are Like:

A pumpkin
A squash
An orange
A flower

They **All** Have:

A **Name**
Attached To Their Form

This is in The **Article**:

Form And The World

Many of These:

Known Objects
With A **Form**
Whether **Big** or **Small**
Have **Been** There
For A **Long Time**

Some **Things** Are:

Thousands of Years Old

These Nice **Things**:

Have Been
The **Founding** of The **World**
Our **World**

The Start Of World History

It is:

- Hard To **Say**
- How **Old** The **World** is

Some Scientists **Say**:

Millions of Years
Whoa

We **Know** Our **World**

We **Know** Our **World**:

From World **History**

All of The:

Objects that We **Know**
That We **Accept**
That We **Allow**
Are All **Here**
Over **Time**

They Don't just:

Arrive in A **Minute**

This is **Part**:

- Of World **History**

Most **Objects**:

Were **Invented**

They **Have**:

Design

There is An **Old Saying**:

Rome Wasn't **Built** in A **Day**

They Don't just:

Arrive in A **Minute**

We **Know** Our **World**:

From World **History**

All of The:

Objects that We **Know**
That We **Accept**
That We **Allow**
Are All **Here**
Over **Time**

We Build The World

In **Everything** that We:

- **Do**
- We Are **in**
- **Relationship** with The **World**

So:

*This **Means** that
We Have **All**
Built The **World** Together*

*We **Believe** in Things
We **Continue** Things*

Everything:

- **Got** Here
- It **Became** An **Object**
- Over **Time**

So:

Now
*Even as We **Speak**
We Are
Contributing To The **World***

*Positive
Negative
Or Neutral*

*We **Believe** in Things
We **Continue** Things*

The Relationship Of The Parts

So:

- We **See**
- **Form** And The **World**

All of The:

- **Objects** in The **World**
- Are **Name** And **Form**

*They **Have**
A **Name**
Attached To Their Form*

*We **Know:***

*a cup
a fan
a person*

*These **Are:***

***Objects**
With **Name And Form***

***All of The**
Objects that Exist
Are
Existing Together*

*The **Objects in The World**
Exist
With
All of The Other Objects*

So:

- They **Must Be**
- All **Linked Together**

The Order

All of The:

- **Things of The World**
- Are **in**
- **The Order**

*They **Are:***

***Dependent on The Order**
The **Balance***

All of The:

- **Things of The World**
- **Conform To The Order**

We **Know**:

The **Universe**

The **Universe**:

The **Great Space**
Is In **Order**

The **Order**:

- **Seems To**
- **Manage Our World**

The **Things in The World**:

Like **Objects**
Stay in Place

Like:

Managed
Order and Balance

I **Think** that:

We Are
In it

I **Think** that:

We Are
With it

The **Things in The World**:

Like **Objects**
Never **Fall Down**
Run Away
Or **Crash into Others**
No

All of The
Objects that Exist
Are
Existing Together

There **Seems To Be:**

An **Order**

We Are In The World

All of Us:

- **See** The **World**
- We **Interact** with The **World**

We:

Go To The World
We **Need The World**

We **Have:**

Our **Duty**
Our **Relationship**

When We:

- **Do**
- **Go To The World**
- Even **Often**
- Then
- We Are **In The World**

Our Whole **Life:**

We **See**
People going around
Doing things
Like **Us**

We **Need The World**

From:

Wake-up
Until **Sleep** at **night**
We **See**
So many **things**
All in Order
All in Place

The Order Is Formal

The **Order**:

- Is **There**

It is:

Managed
Managed By Someone
Or Something

We **See The World**:

*Has **Order***

And:

We Are
Part of The World

*We **Belong with The World***

So:

- We **Belong**
- **Also**
- To The **Order**
- The **Order** of The **World**

*The **Order**:*

*Is **Formal***
*It is **Managed***
*It **Manages***
*And We Are **with it***

*We **Probably**:*

*Cannot **Escape it***

*We **See The Order***
*We Are **Aware** of it*
And
*It is **There***

*The **World**:*

*Has **Balance** and **Order***

The World Is Complex

Since:

- The **World** Has
- So Many **Parts**
- Then
- The **World** is **Complex**

Complex is:

We **Know**
So Many **Parts**
In The **World**

The **World**:

Being **Complex**
Has
So Many **Parts**

We **See**:

The Many **Parts**

There **Are**:

Energies
Influences
Weather
Moods
And Opinions

With:

So Many **Parts**
Then
The **World** Is **Complex**

But is The **World**:

Just
The **World**
A **Name** with A **Form**
Like
Just An **Appearance**

The World Needs Formal

The **World** is **Big**

We **Know** This

*The **World** is **Big**:*

Like

*So Many **Things**
In The **World***

*Many Languages
Many Creeds
Man Made Things*

*Many **Objects** in The **World***

So:

- Being **Big**
- The **World** Needs **Formal**

Also:

*Many of
The **Objects** in The **World**
Are **Specific***

The Glory Of The Objects

There Really **is**:

- So Much **Variety**
- In The **World**

*There **Are**:*

*Many **Objects** Out **There***

Of The:

- Many **Objects** Out **There**
- In The **World**
- **Many** Are
- **Single**
- **Unique** Objects

There Really **is**:

So Much **Variety**
In The **World**

So:

- The **World** Needs **Formal**

The World **Needs**:

Organized
And
Structure

The World **Needs**:

Room
To **Breathe**
The **World** is **Big**

The **World** Needs **Formal**

Formal is:

A Big **Help**
For The **World**

The World Knows The Objects

So Many **Objects**:

- Are **in** The **World**

These **Are**:

Name and **Form**
The **Objects**
In
The **World**

Name and **Form**:

One **each**
One **name**
And One **form**
Each

So:

- Our **Point**

Formal is About:

Name and Form

All of These:

Things Together

In The World

Names and Forms

These **Things:**

Are like

Totally **Formal**

Name and form

Recognized

Verified

Certified

So Many **Things:**

The **Objects in The World**

So:

- We **See**
- The **Formal in The World**

Balanced

In Order

Is There

Name and Form

Recognized

Verified

Certified

Since The **World:**

Is So **Big**

Then

It is **Good**

To **Have Formal**

When Our World Began

We **Wonder**:

- **How** The **World**
- **Our World**
- Person, place and thing
- **Got** There

I Mean:

*In **Front** of **Us**
We **See**
A **World**
Already **Defined***

*We **Wonder**:*

***How** it **Was** **Defined**
Constructed
Assembled
Agreed upon*

Whoa:

*Many **Things** Are **There***

We Do **All**:

- **Agree**
- That
- The **World** is **There**

For example:

*In The **World**
We **See**
Definitions
Borders
And Boundaries*

*The **World** is **There***

*These **Things**:*

*In The **World**
Are
Formally **Recognized***

We **Agree** On **Them**

Well:

- This is **Formal**

Formal is in **The World**

We **Need** it

We **Use** it

We **Put** it **There**

We **Want** **The Formal**:

In **The World**

Our World

So That We **Have** it

The Main Point

So, We **See** This:

- **Formal Definition**
- **World Definition**
- **Formal** in **The World**

Then We Must **Admit**:

There is **Two**

we Have **Two**

Seeing The Two

For **Us**:

- **The World** is
- **Witnessed**
- **And**
- **Verified**

Verified:

By **Us**

And **Others**

We **See** **The World**

We **Say** **This**

Pg 37

There **is**:

- **Us**
- And The **People**
- And The **World**

Name and Form
Objects
Many

So We **Have**:

Two
The **witness**
Us
And
The **Object**
The **World**

We **See** The **World**:

It **is** **There**
In **Front** of **Us**

So:

We Have **Two**
We Have These **Two**

Us And The **World**

Living With The Formal

So, **Formal** is **There**

Then We **Can**:

- **See**
- And **Have**
- **Formal**

Therefore:

It **Makes** Good **Sense**
To **See** it
Acknowledge it
Even
Admit it

The **World** is **Formal**

It is **Recognized** by **Us**

Formal And Relationship

Actually:

- We **Need** **Formal**

We **See** that:

In **Relationship**

Like

Us And The **World**

Always There is **Formal**

In **Relationship**:

We Should **See** The **Formal**

We Should:

Consider

Or

Include

The **Other**

Allowing Can Be:

Our **partner**

Or

Even with **adversary**

We Should **Consider** **Formal**

Needing Formal

So:

- Someone Might **Ask**
- What's So **Good**
- About **Formal**

Afterall:

It **Seems** like

A **Lot** of **Work**

Yes **Formal**

In The **World**:

There **Are**
So **many**
Languages
Creeds
Opinions
And Moods

Also:

The **World** is So **Big**

We **Need To Manage**
So Much **Stuff**

How Our World Was Made

We **See** Our **World**:

- It **is**
- In **Front** of **Us**

And, **Also:**

- It Was **There**
- When We **Began**

And:

It Got **Big**
By **Design**

For example:

We **See**
World **Institutions**

When We:

Agree On Definition
In The **World**
Then
There Are **Things** like
Institutions
Pg 40

These Are:

Big Things

These Are:

Things that We
Use
Refer to
Access

Together
In **Common**

We Even:

Assume
That These **Things**
Are **There**
Will Be **There**

We **Want** Them:

To Be **Real**

So:

How Our **World** was **Made**

Everywhere:

We **See**
Name and **Form**
Verified
With **Agreement**

And **All** of **These:**

With **Formal**

The Value Of Formal

Formal Makes **Things:**

- **Organized**
- **Safe**
- **Structured**

Then They Are:

*More **Real**
Actual
Authentic*

Formal And Structure

We Have **Wondered:**

- **How Our World was Made**

*We **See:***

Structure in The World

*The **World Has:***

Layers and Layers of Structure

Formal Gives Structure

We Need **Formal:**

- For **Structure**

*The **World is Big***

For example:

A bridge

A dam

A Society

*We Need **Formal for Structure***

*The Formal **Holds it Together***

Like Our Beliefs

It is **Good:**

- To Have **Beliefs**

*We Should **Be:***

Serious About Them

*It is **Good**:*

*When **Beliefs**
Stay **true**
Valid
Worthwhile
Continuing*

We **Want**:

- The **Definitions**
- With and Of
- **Formal**

*Agreement
Acknowledging
These **Things***

Things in Common Have Formal

ENDING

We Have **Discussed**:

- **Formal** And The **World**

*The Whole **World**:*

*Is
Name and **Form***

*In **This**, We **See**:*

*And **Know** About
The **Relationships**
The **Balance**
The **Order***

*We **See** it All **Around**:*

All** of the **time

Then:

- We **Agree** On **This**
- **Formal** is In The **World**

*We **See** it
Pg 43*

So:

We **Admit**
That
We **See**
Formal in The **World**

We **Know** that:

There is
The **World**
And **Us**
The **Witness** of it

So:

- We **Know**
- **Us** Seeing The **World**

That is **Two:**

Us Seeing The **World**

This is **Formal**

We Have These **Two:**

Formality is in The **World**

We **Like:**

That There **is**
Formality in The **World**

Formal **Makes** The **World:**

A **Safer** Place

Yes, We **Have it**

So **Go**
Check and **See**
Formal in The **World**
