

Knowing Is Better

Author: Thomas Lloyd
TheEvenMind

This is My **Article**:

- **Knowing is Better**

*It is **About**:*

*A **Saying** That I **Have***

I **Have A Saying**:

- **Knowing is Better**
- **Than Not Knowing**

***This** Can Make **Sense**:*

*And I **Think** that
It Usually **Does***

For example:

***Sometimes** We Might
Run into A **Difficulty***

*We Might Be **Doing Something**
Like A **Task**
And One **Part** of it
Might **Prove Difficult***

So:

- **This** is What I **Mean**
- Run into A **Difficulty**

*Another **Word** For **This**:*

*Run into A **Difficulty**
Is
To **Get** into A **Fix***

Well:

- I Have Another **Saying**
- For **This** One

*The Other **Saying** is:*

*The **Best Way**
To **Get Out of A Fix**
Is
To **Know** What it is*

This We Can See

So, Then:

- The **Main Line**
- Proves **True Here**

*The **Main Line**:*

*Or **Saying** is
Knowing is Better
Than **Not Knowing***

*This **Saying**:*

*Makes **Sense**
And I **Think**
Is **Helpful Too***

The Reason For This

The **Saying** is:

- **Knowing** is **Better**
- Than **Not Knowing**

*The **Reason** that:*

***Knowing is Better**
Than **Not Knowing**
Is **Because**
The **Knowing**
Has A **Fence** Around it*

When We:

- **Know** Something
- It is Less **Vulnerable**

If:

*We Don't **Know** Something
Then There Could **Be**
Many **Possibilities***

But:

*When We
Know Something
It is Less **Vulnerable***

The **Knowing:**

- Contains
- The **Stuff** Of
- The **Knowing**

Other *Stuff:*

*Is **Not** The **Same** As
The **Stuff** Of
The **Knowing***

When We:

***Know** Something
Then **That**
Is **About**
That Thing*

Therefore:

*The **Knowing**
Has A **Fence** Around it*

An Also

Finally:

- I Can **Add**
- An **Also**

Pg 3

This is:

Another Reason

Why

Knowing Is Valuable

Knowing Is Valuable:

Because

Knowing Helps Build

Intelligence
