

Bastard Psychology

Author: Thomas Lloyd
TheEvenMind

This is My **Article**:

- **Bastard Psychology**

*It is **About**:*

Psychology
Like From
***Mental Health** system*

In USA:

- They **Have**
- **Mental Health** system

In This:

***Mental Health** system*
*People Are **Held***
Like
***Kept** in Facilities*

*The **Holding Places**:*

Are The Facilities

These People:

- Called **Clients**
- Are **Deposited** There
- In
- **Mental Health** system

This is:

*Under **Control***
*And **Managed** By*
***Psych** Professionals*

The **Idea** of Psychology:

- Is **Called**
- A **Mind** Science

So:

In USA
*The **Study** of The **Mind***
Human Mind
*Is in **Category***
Psychology

*This **Article:***

Bastard Psychology
*Is **About***
Psychology

*I Am **Calling** it:*

Bastard Psychology
Like From
***Mental Health** system*

Psychology Practice

Most People:

- Have **Heard** of
- **Mental Health** system

Heck:

*We May **Know***
*Someone **from** There*

Our **Life:**

- Is Our **Own**

*We **Started:***

*To **Know** This*
*Our **Life***
*From Our **Parents***

Somehow:

- USA Government **Decided**
- People Were **Not Good**

*USA Government **Decided:***

*People Need **Help***

So:

- USA Government
- **Made**
- **Mental Health** system

In USA:

*90% of USA **People**
Are **Held** in
Mental Health system*

***Mental Health** system:*

*Is **Not Good***

I Think that:

- Somehow
- USA Government **Decided**
- People Have **Error**

*They **Assign** This:*

*To **Mental Health** system*

*USA Government **Decided:***

*People Need **Help***

*Psychology **Practice:***

*Is in
Mental Health system*

*Psychology **Practice:***

*Is **Called**
A **Mind** Science*

This:

- Psychology **Practice**
- Seems **Odd**

This Article:

Bastard Psychology
Is About
Psychology

I Am Calling it:

Bastard Psychology
Like From
Mental Health system

We Can See This:

With An Example

Why Bastard Psychology

In USA:

- Psychology **Practice**
- Is **Called**
- A **Mind** Science

So:

Psychology Practice
Why Call it
Bastard Psychology

Well:

I Can Say This
Simply

It is Called:

Bastard Psychology
For A Reason

This:

- Psychology

- Psychology **Practice**
- Is **Called**
- A **Mind** Science

Yet:

*It Seems **Odd***

The **Reason** is:

- I **Think** that
- **This** Psychology
- Psychology **Practice**
- Cannot **Stand Alone**

This Psychology:

*They Always **Present** it
Weird*

Hey:

- We All **Have**
- A **Mind**

*I Don't **Think** that:*

***Mind** is **Weird**
No*

Yet:

- This Psychology
- Like
- **Mental Health** system
- Is **Weird**

*It Seems **Odd:***

*They Always **Present** it
Weird
This Psychology*

So:

- Psychology **Practice**
- Why **Call** it
- **Bastard** Psychology

The **Reason** is:

- I **Think** that
- **This** Psychology
- Psychology **Practice**
- Cannot **Stand Alone**

This Psychology:

*They Always **Present** it
Weird*

*This is **Because:***

*It Cannot **Stand Alone***

*Let's **See***

To Stand Alone

This **Idea:**

- To **Stand Alone**

*We **Know** This:*

*Like When We
Walk in The **Rain**
Omg*

*To **Stand Alone***

The **Idea:**

- To **Stand Alone**
- Is like
- **Full**
- Or **Entire**

*We Might **Think** of:*

*To **Stand Alone***

As

Complete

Entire

***Full** enough*

We Might **Think** of:

To **Stand Alone**

As

Actual

Like

With Definition

Yet:

- This Psychology
- Psychology **Practice**
- I **Think** that It
- Cannot **Stand Alone**

This Psychology:

They Always **Present** it

Weird

Like

Mental Health system

So:

To **Stand Alone**

I **Think** that

This Psychology

Psychology **Practice**

Cannot **Stand Alone**

I **Think** that:

This Psychology

Psychology **Practice**

Is **Short**

Cannot **Stand Alone**

Psych Clients

So:

- USA Government
- **Made**
- **Mental Health** system

The People:

*In **Mental Health** system*

*Are Called
Clients*

Most People:

*Have **Heard** of
Mental Health system*

Heck:

*We May **Know**
Someone from **There***

We Remember:

- Somehow
- USA Government **Decided**
- People Were **Not Good**

*USA Government **Decided:***

*People Need **Help***

So:

*USA Government
Made
Mental Health system*

The People:

*In **Mental Health** system
Are Called
Clients*

This Psychology:

- They Always **Present** it
- **Weird**
- Like
- **Mental Health** system

In This:

***Mental Health** system
People Are **Held**
Like
Kept in Facilities*

*The **Holding Places:***

*Are The **Facilities***

These People:

- Called **Clients**
- Are **Deposited** There
- In
- **Mental Health** system

Heck:

*We May **Know**
Someone **from** There
Psych **Clients***

Not Stand Alone

So:

- This Psychology
- They Always **Present** it
- **Weird**

This is Like:

***Mental Health** system*

So:

*To **Stand Alone**
I **Think** that
This Psychology
Psychology **Practice**
Cannot **Stand Alone***

Then:

- Not **Stand Alone**

*I **Think** that:*

*This Psychology
Psychology **Practice**
Is **Short**
Cannot **Stand Alone***

Well:

- If
- Not **Stand Alone**
- Then
- This Psychology
- Psychology **Practice**
- Will Not **Have**
- A **Companion**

Oh:

*Then That is **Sad***

If:

- Not **Stand Alone**
- And
- With No **Companion**
- Then
- This Psychology
- Psychology **Practice**
- Seems **Vague**

Whoa:

***Looks Like**
Bastard Psychology*

*Let's **See***

Psychology As Vague

Whoa:

- The **Meat**

*Psychology As **Vague:***

*That is
Not **Stand Alone**
That is
With No **Companion***

Psychology As Vague:

- Iffy

- **Questionable**
- Or
- Just Plain **Wrong**

Just Plain Wrong:

Is like
No Good
ng

Psychology As **Vague:**

- Is like
- A **Bastard**
- Or
- A **Motherless Child**

Bastard:

Not created

No Law Made it

So:

- Psychology As **Vague**
- Is Just
- **Not Clear**

This:

Vague
Not Clear
Looks Like
Bastard Psychology

Not Stand Alone:

This Psychology
*They Always **Present it***
Weird

This is Like:

Mental Health system
*They Always **Present it***
Weird

This:

Vague
Not Clear
Looks Like
Bastard Psychology

Reason For Vague

I Have **Said** that:

- The Psychology
- Like From
- **Mental Health** system
- Appears **Vague**

*They Always **Present** it:*

Weird

Again:

*This **Vague***
Is like
Not Clear

The:

- **Not Clear**
- Is like
- **Not with Definition**

*This was **Shown:***

*In The **Word***
Iffy

*Psychology As **Vague:***

Iffy
Questionable
Or
*Just Plain **Wrong***

So:

- There is
- **Reason For Vague**

Psych Fingers People

Since:

- Psychology As **Vague**
- We **See**
- Then
- It is **Hard**
- To **Know Mind**

Therefore:

Psych Fingers People

Somehow:

- USA Government **Decided**
- People Were **Not Good**

USA Government Decided:

People Need Help

Yet:

- Psychology As **Vague**
- We **See**
- Then
- It is **Hard**
- **To Know Mind**

So:

Psych Fingers People

Whoa:

*They Will Slam You
When They Want*

If:

*Psych Fingers People
Then
They Will Slam You
When They Want*

Hey, then:

*What is
A Psych Episode*

A Psych Episode

A Small **example:**

- **Psych Episode**

Since:

*Psychology is Vague
Mind is Hard To Know
Then
Psych Fingers People*

People Get **Slammed:**

- In **Mental Health** system
- Like **Quick**
- Whoa

And:

*The Psych doctors
Commit The People*

Remember:

*A Small example
A Psych Episode*

Those:

- **Psych** doctors
- Use **Lowly Methods**
- To **Finger People**

And:

*They Will Slam You
When They Want*

Psych **Fingers People:**

- With **Lowly Methods**

*They Will **Slam You**
When They **Want***

A Few **Psych Methods**:

- Who's on **first**
- **Racecard** psych
- **Name calling** psych
- **Meathead** psych

A Small Psych Episode

*A person **appears***

*Then, **psych** doctor
Sees him*

*Hey **you**
You **are**
Mentally ill*

***So**
Take these **meds***

***Also**, then
Sit down
And
Shut up*

*The boy **obeys**
He **thinks**:*

***This** is
A Small **Psych Episode***

***Years** may **pass**
Omg*

Since it is:

***Like** This
Then
We **See**
Reason For Vague*

***Meds** Are Medications*

The Models

Well:

- The Psychology
- Like From
- **Mental Health** system
- Appears **Vague**

We Saw:

A Few Psych Methods

Who's on first
Racecard psych
Name calling psych
Meathead psych

These Are:

- **Models**

The Models:

Are Run By
Psych Professionals

I Have Seen:

This Psychology
For Forty Years Now

I Do **Think:**

- That it
- Appears **Vague**

The Main
Reason For Vague
Is
It Runs in Models

By **Models:**

- I Mean
- Types of Presenting

Pg 16

There Are:

Various **Ways**
Or **Modes**
Like **Models**
That The Psychology
Is **Presented**

Psych is Presented:

- In **Facilities**

The **Holding Places:**

Are The **Facilities**

Psychology **Practice:**

- I Have **Seen**
- In **Community**

For **example:**

Day Treatment **Centers**
Counseling Offices
Mentors for Kids
Or
Outright **Police Arrests**

These **examples:**

We May Have
Seen Around

Sometimes:

- The **Community** May
- **Show** Them To Us

So:

Appearing This Way
Like
The **examples**
The Psychology
Seems To Run in Modes

I **Call** These:

- **Models**

Traditional Psychology:

Ran in Models

Called

Sub-fields

Departments or Categories:

In Psychology

*Were **Called***

Sub-fields

These **Days:**

- The Psychology
- **Seems To Run in Modes**

I Call These:

Models

Four Models in Color

So:

- The Psychology
- **Seems To Run in Modes**
- Or **Models**

Four Models:

*We Have **Seen***

*They **Are:***

Who's on first

Racecard psych

Name calling psych

Meathead psych

These **Models:**

- Are **Methods**
- **Used By Psych** doctors

This Psychology:

Is

*Not **Stand Alone***

*They Always **Present** it*

Weird

*Let's **Look At The Models***

Model One

One **Model** Used:

- By **Psych** doctors
- Is
- **Who's On First**

*This is **like**:*

What is a psych doctor

The **Client**:

- May **Wonder**
- **Why** is the doctor **here**
- Like
- In **my face**

*We **Wonder**:*

Wtf

*Is there **any***

Introduction

Or

*Is **this** just like*

*A **Driveby***

Omg

The **Shock**:

- Of **Psych** doctors
- Could **Chill** Anyone

***Who's On First**:*

*We Can **See** it*

Pg 19

Like:

A Slur
That We
*Are **supposed** to eat*

Whoa:

No thanks
Man

Did they **ever**:

- **Talk about** it
- Is there **any**
- **Introduction**

Or is it:

Just the apparent
Slam

*The **Slam**:*

As
*General **psych method**:*

***Grab** him*
Like
Suddenly
*From **nowhere***

***Say**:*

*You are **disabled***
***Call** that*
Mentally ill

***Assign** medications:*

After
*To **put** a **diagnosis***
Omg

Most **Diagnosis**:

- **Scizophrenia**

This is like:

General disorder

Whoa

This is:

Just a slur

*They **never** talk*

They **Never:**

- **Discuss**
- **And**
- There is **no treatment**

No hope:

*To **recover***

Like

*From a **misunderstanding***

*Or **accident***

jeez

One Model Used:

- By **Psych** doctors
- **Is**
- **Who's On First**

Model Two

Another **Model** Used:

- By **Psych** doctors
- **Is**
- **Racecard psych**

Racecard psych:

*Uses **Racecarding***

This **is:**

- **All things** the same
- Like
- **One** of a group

Pg 21

Racecard psych:

Uses **Racecarding**

Like

Naming people as **bad**

Or just

General **slobbering**

The **Psych** doctors:

Don't **Seem To Know**

Anybody

Model Three

Another **Model** Used:

- By **Psych** doctors
- Is
- **Name calling psych**

Name calling psych:

Is No Good

The **Psych** doctors:

- May **imply**
- Interrogation
- Or
- **Accusative**
- But They Are **Vague**

Name calling psych:

May Be like

Isolating

Low functioning

Or even

Psychotic

Name calling psych:

Is No Good

It is like:

General slobbering

The **Psych** doctors:

*Don't Seem To Know
Anybody*

Model Four

The Fourth **Model** Used:

- By **Psych** doctors
- Is
- **Meathead psych**

Meathead psych:

*Is like
Super **Base***

The **Psych** doctors:

- Are Super **Base**

I Mean:

*They Use
These Same **Models**
Or **Methods**
On **Everybody***

We Are **All**:

- **Unique**

*We **Saw** it:*

*In **School***

*Each **Person** Has:*

*His Own **Thing To Do***

*We Are **Not** The **Same***

*We Are **All**:*

Unique

Meathead psych:

- Is like
- You will **never** be **more**
- Than
- A **little guy**
- Or
- A **squirt**

*The **Methods** Used:*

*By **Psych** doctors
Are Super **Base***

*I **Mean**:*

*They Use
These Same **Models**
Or **Methods**
On **Everybody***

The Point

Well:

- We **Got To Here**

Then:

*The **Point***

The Psychology:

- **Managed** By
- The **Psych** doctors
- Is **Base**

*It is **Hard To Know**:*

*The **Mind***

These **examples**:

- **About**
- The Psychology
- Are **like**
- **Compliments** for **psych**

But then:

*What about
Alone*

It Seems **Odd:**

- The Psychology

The Reason is:

*I **Think** that
This Psychology
Psychology **Practice**
Cannot **Stand Alone***

This Psychology:

- They Always **Present** it
- **Weird**

*Can psych **stand alone***

Or is it:

*Just **like**
Politics*

The **Politics:**

- Is just
- Like
- **Beating around the bush**

Politics:

***Beating around the bush**
And
Even **if**
Nothing in the bush*

*The **Point** is **Valid***

Another Point

The Psychology:

- Is mainly **British**

*A **keen** observation:*

*Is that
Brits want you
To **believe psych***

*This is **Way Out***

***British** want you
To **believe psych**
Thinking that*

*If their **psych** is **there**
Like **existing**
Then
Brits have an **intellect***

lol

I Don't Think They Do

I Think that:

- They have **no mind**
- No **access** to **mind**

*You **cannot**:*

***Screw up** The **World**
And **think**
That it is **ok**
No*

So:

***I Think** that
Brits have **no intellect***

I Don't Think They Do

Then What

Well:

- If **Brits**
- Have **no intellect**
- **Then what**

What Do They Put

Oh:

Maybe

Cassette tape lines

Generalities

Slurs

Scaring imagines

Maybe They Put:

Some christian scare

Like

Over the centuries

Omg:

Boring

The Psychology:

- Is mainly **British**

Maybe They Put:

Like dead

Can the:

- **Brit psych**
- Hold **water**

Probably No

So:

- Can they ever
- **Retain interest** in it
- Omg

The Psychology:

*From **British***

*Certainly Has **Done***

Damage

Then **What:**

- It is **Only**
- **Bastard Psychology**

The Reason is:

*I **Think** that
This Psychology
Psychology **Practice**
Cannot **Stand Alone***

Closing

The **Bastard** Psychology:

- Is **Only**
- **Bastard Psychology**

*I've **Seen** this:*

*As **Fiery***

Can it **stand:**

- The **Bastard** Psychology
- Like
- Over **time**

Then:

***Why** do
Psych doctors **do** it*

*Who's on first
Racecard psych
Namecalling
Labeling*

What **are:**

- The **diagnoses**

***Meathead** psych:*

*Like
Maybe **bullying***

Or just **dumb brute**:

Like
General **slobbering**

So:

- The **Overall Point**

The **Bastard** Psychology:

Is **Only**
Bastard Psychology

It **Hardly Has Substance**

The **Mind**:

- Is **Hard To Know**

The **Bastard** Psychology:

Needs these Abstractions
Like
The **Modes**
The **Models**

The **Bastard** Psychology:

- **Needs** these
- **Types of Attempts**

Whoa:

Without the Weirdness
Then
Who would think
Of **psych**

If:

- The **Bastard** Psychology
- Was
- Just **Alone**
- Then
- **Who would think**
- Of **psych**

What is **psych**:

*Without any
Imagined in it*

So:

- **British psych** is empty

*Imagined
But
No allure*

As Not Attractive:

*Wtf good
Is
British psych*

The **Bastard** Psychology:

- Cannot **Stand Alone**

*The **Bastard** Psychology:*

*Is **Only**
Bastard Psychology*

Psych Medications

The Psychology:

- Is Mainly **British**

*It is **Based On**:*

Sigmund Freud

Especially with:

- **British Psych Medications**
- What **Good** is psych

British Psych Medications:

Like Resperidone

This is a:

- **Psycotropic drug**

*Psycotropic **drug**:*

*Is **mind altering***

*By **Definition***

Made of:

Sulphur and

Radiation

Boo

Psychology As Subordinate

So:

- When a **person**
- Is **there**
- And
- **Psych** doctor **grabs** him

*For no **apparent reason***

Then:

*We see **directly***

*The **psych** is*

Subordinate

This is like:

- **Reactionary**

But:

Reacting to what

When:

*The **person***

*Didn't **do anything***

Then

Why** do the **people

***Buy** this*

Reactionary **slamming**:

From **shit**

Invented:

Or **worse**

This is **Not Mind**

It is:

Worse Than Poor

The **types** of:

- **Psych slam**
- **Are**

Juvenile

Immature

Un baked

No **regard**

No allure

Not related

So:

- **Psychology As Subordinate**

Vague and abstract

So:

Probably from

Abandon

Lack of interest

The spread of abandon

This Sounds Jew

*Is it **only**:*

*A Christian **Scare***

The **Bastard** Psychology:

- Cannot **Stand Alone**

*The **Bastard** Psychology:*

*Is Only
Bastard Psychology*
