

The Space Inside A Cup

Author: Thomas Lloyd
TheEvenMind

This is My **Article**:

- **The Space Inside A Cup**

*It is **About**:*

***Inside** A Cup
The **Space**
In There*

Inside A **Cup**:

- There is
- The **Space** inside it

It is:

*The **Space**
Inside A **Cup**
That We **Use***

*We Might **Put**:*

***Liquid** in The Cup
For Us*

*We **Know** This Already*

For example:

*A cup of broth
A cup of juice
A cup of coffee or tea*

It is:

*The **Space**
Inside A **Cup**
That We **Use***

So:

- We Have This **Article**
- About The **Topic**
- The **Space** Inside A **Cup**

*It is **Interesting**:*

*To **Think** About
The **Space** Inside A **Cup***

The Article Itself

This Article:

- About The **Topic**
- The **Space** Inside A **Cup**
- Is Like
- A **Narrative**

*I Have **Said** that:*

*It is **Interesting**
To **Think** About
The **Space** Inside A **Cup***

So:

- In The **Article**
- As A **Narrative**
- We Can **Discuss** The **Topic**
- The **Space** Inside A **Cup**

*We **Look** At it:*

*And, **Along** The **Way**
Explain About The **Topic**
The **Space** Inside A **Cup***

*Let's **See***

About A Cup

We All:

- **Know** what a **cup** is

We:

Use a cup
All of the time

*We Know **Already**:*

A cup of broth
A cup of juice
A cup of coffee or tea

We All:

Know what a **cup** is

And:

We **Know** that
It is
The **Space**
Inside A **Cup**
That We **Use**

A cup of broth
A cup of juice
A cup of coffee or tea

It is
The **Space**
Inside A **Cup**
That We **Use**

Inside A Cup

A cup:

- We **Know**

*A cup is **useful** for Us*

Inside A Cup:

- There is A **Space**
- An **Area**

The **Inside** of A **Cup**:

- We **use** for **Ourselves**

We **Might**:

Fill it with liquid

Like

A cup of broth

A cup of juice

A cup of coffee or tea

Usually, then:

We would **drink** from it

So, for **Us**:

- It is
- The **Inside** of A **Cup**
- That has **value**

We **use**:

The **inside** of the **cup**

For **Ourselves**

We probably All **have**:

Good **memories** about
the **inside** of the **cup**

We **use**:

The **inside** of the **cup**

For **Ourselves**

The Space Inside The Cup

Inside the **cup**:

- There is
- The **space** inside it

Whatever We **put**:

In the **cup**

Goes **into**

The **space** inside the **cup**

The **Inside** of A **Cup**:

- Can **hold**
- As **much** as
- Will **fit** into it

Whether A **Cup** is:

Full

Or

Half Full

It Can **hold**

As **much** as

Will **fit** into it

It is:

The **space**

Inside the **cup**

Where we **put** things

A cup of broth

A cup of juice

A cup of coffee or tea

Whether the **space**:

Inside the **cup**

Is **Full** or **empty**

It is **still**

Just

The **space** inside the **cup**

The **space** inside the **cup**:

Is Nothing **more**

Nor

Nothing **less**

Than

The **space** inside the **cup**

Around The Cup

As We have **seen**:

- Inside the **cup**
- There is
- The **space** inside the **cup**

This space:

*Inside the **cup**
It **knows** itself*

*It **knows**:*

*The **space** inside the **cup***

*That is **His** Area
Inside the cup*

*It **knows** this:*

*As **itself***

And:

- It is also **aware** of
- The **space**
- **Outside** the **cup**

Around The Cup:

***Outside** the **cup**
Is
More space*

There is:

- A **Large** Area
- **Outside** the **cup**

*The **cup**:*

*Is **small**
Yet
Around The Cup
Outside the **cup**
Is **More***

*This **space**:*

***Inside** the **cup**
Knows **also**
That There is
Space **Outside** the **cup***

We Can **Call** This **Space**:

- **Outside** the **cup**
- **As**
- The **Great Space**

This:

*Vast, Big **space***
Outside** the **cup
Is
*The **Great Space***

And The:

*Space **inside** the **cup***
*Knows **also***
*The **Space***
Outside** the **cup

*An **Area**:*

*It is **There***

The Great Space

This:

- **Great Space**
- **Outside** the **cup**
- We **know** this

In This:

*Vast, Big **space***
Outside** the **cup
*We Have **Seen***

*The **air***
*The **sky***
*The **room***
*The **world***

*All **around** the **cup**:*

There is
*The **outside** of the **cup***

We Can **Call**:

- This **Space**
- **Outside** the cup
- As
- The **Great Space**

For:

*The space **inside** the cup*
*The space **outside** the cup*
Is
*The **Great Space***

Outside the cup:

- The **space** inside the **cup**
- **Sees**
- The **Great Space**

It is:

Big
And
Outside the cup

*The **space** inside the **cup**:*

*Knows this **big space***

The **space** inside the **cup**:

- Is **within**
- The **Great Space**
- The space **outside** the **cup**

*The space **outside** the cup:*

*Is **Big***
And
Outside the cup

Seeing These Two

Well:

- This is **Article**
- The **Space Inside A Cup**

*We Have **Learned**:*

*By **Meet**
The **Space** Inside A **Cup***

*It is **Nice**:*

*The **Space** Inside A **Cup***

*Hey, We **Use** it*

Well:

- Also We Have **Learned**
- The **Great Space**
- The space **outside** the **cup**

*The **Great Space**:*

*Is
The **space** outside the **cup***

*The **space** inside the **cup**:*

***Knows**
The **space** outside the **cup**
The **Great Space***

The **space** inside the **cup**:

- Is **within**
- The **Great Space**
- The **space** outside the **cup**

***So**:*

***Seeing** These Two
We Have **Learned**
These Two*

*The **space** inside the **cup**
And
The **Great Space**
The **space** outside the **cup***

About Being Separate

So:

- The **space** inside the **cup**
- **Knows** itself

Also:

*It **Knows**
That
It is **small***

Afterall:

*It is **only**
The **space** inside the **cup***

*There are **many** things:*

*In the **world**
That are
Bigger than
The **space** inside the **cup***

The **space** inside the **cup**:

- Can
- **Be** itself
- **Inside** the **cup**

Also:

*It can
Manage its **affairs**
Which are
Inside the **cup***

But:

- The **space** inside the **cup**
- Is **within**
- The **Great Space**
- The space **outside** the **cup**

So:

*Even if **small***

Is

*The **space** inside the **cup***

***Separate** from*

*The **Great Space***

Oooh

Their Relationship

Between These **Two**:

- They are **Related**

*The **space** inside the **cup***

And

*The **Great Space***

*The space **outside** the **cup***

Their **Relationship**:

- They are **Related**

*Even **though**:*

*The **space** inside the **cup***

Sees

*The **Great Space***

*The space **outside** the **cup***

*They are **Related***

*These **Two**:*

*They are not so **different***

There is:

- A **relationship**
- Between
- These **two**
- The **space** inside the **cup**
- And
- The **Great Space**
- The space **outside** the **cup**

The *space* inside the *cup*:

Knows about
The **Great Space**

It **knows** that:

The **Great Space**
Is
Big and
Outside the *cup*

Yet:

Even if *small*
Is
The *space* inside the *cup*
Separate from
The **Great Space**

Ooh

The Interesting Thing

So, Being **Here**:

- We **Wonder**
- Are They **Different**
- These **Two**

The *space* inside the *cup*
And
The **Great Space**
The *space* **outside** the *cup*

Well:

- It **Seems** that
- The **interesting thing** is
- That
- These **Two** Are Not **Different**

We **See** that:

The *space* inside the *cup*
Has his **Space**
Inside the *cup*

And :

*The space **outside** the cup*
*The **Great Space***
*Has his **Space***
Whoa
***Outside** the cup*

***Outside** the cup:*

It is
Big** and **Vast
Whoa

Yet:

- It **Seems** that
- The **interesting thing** is
- That
- These **Two** Are Not **Different**

*The **space** inside the cup:*

Is really not
***Different** than*
*The **Great Space***
***Outside** the cup*

*Even **though**:*

*The **Great Space***
Is
***Outside** the cup*
*These **two** are not*
*So **different***

Yay

Review Article

So:

- Being **Here**
- We **Know** About
- The **Space In A Cup**

Inside Of The Cup:

*Is The Space
And This is
The Part We Use*

We Might **Put:**

- **Liquid** in The **Cup**
- For **Us**

We **Know** This Already

For example:

*A cup of broth
A cup of juice
A cup of coffee or tea*

Inside Of The Cup:

*Is The Space
That We Use*

The **Space** Inside The **Cup:**

- **Knows** Itself

It is:

*The Space
Inside Of The Cup*

Also it **Knows:**

- Is **aware** of
- The **space**
- **Outside** the **cup**

Outside the cup:

*Is A
Vast, Big space*

Outside the cup:

*Is
The Great Space*

So:

*The **Space** Inside The **Cup**
Lives its **Life***

As

*The **Space** Inside The **Cup**
This We Can **See***

When The Cup Breaks

Well:

- What **About**
- If The Cup **Breaks**

*If The Cup **Breaks**:*

Then

That** is **Different

For

*The **Space** Inside The **Cup***

*The **Space** Inside The **Cup**:*

Knows

*The space **Outside** the **cup***

*These **two**:*

Seem** to be **different

*From each **other***

Afterall:

*They are **separated***

*By the **walls** of the **cup***

It is:

- The **walls** of the **cup**
- That **hold** in
- The **space** inside the **cup**

*We **see** this:*

*The **space** inside the **cup***

Is

Within** the **cup

It:

*Depends on the
Walls of the cup*

The space inside the cup:

*Is
Within the cup*

We also **know**, Here:

- That
- As with **all things**
- One day the **cup** will **break**

Maybe:

*Somebody will drop the cup
Or
An accident might happen*

Yet:

*As with all things
One day the cup will break*

This **happens** to:

- **Most** things
- They somehow will **reach**
- The **end** of their **life**

*As with all things
One day the cup will break*

Moving Along

So:

- To be **simple**, here
- We have to **think**

Let's think about:

The space inside the cup

We have *come* to *know* this:

As

Our space inside the cup

Our Space Inside The Cup

We **Know**:

- The **space** inside the **cup**

The *one* that we *speak* of:

Here

The *one* that is our *example*

The *space* inside the *cup*

As:

Our space inside the cup

We *think* about it

Now:

- When the cup **breaks**
- As does **happen** in **nature**
- Then
- The **walls** of the cup **break**

The *walls* of the *cup*:

Around

The *space* inside the *cup*

One day:

The *walls* of the *cup*

Will **break**

Then:

- They **shall**
- **Fall** down
- The **cup** will **break**

Then

These *walls* of the *cup*

Will be *gone*

When the cup **breaks**
When the **cup** finally **breaks**
Which is **Someday**
Then the **life** of the **cup**
Will be **through**

The **cup** will be **finished**

This **happens** to **most things**

The Point of This Story

So:

- We **see** this
- That the **fate** of the **cup**
- Is to **break**

The **cup** will be **finished**

This **happens** to **most things**

So:

- Its **life** will be **over**

As with **most things**:

One **day** the **cup** will **break**

Thinking About This

So:

- The **Cup**

After **spending**:

A **life** in the world
Then we might **wonder**
What will **happen** to
The **space** inside the **cup**

Afterall:

We **know** this now as
Our space **inside** the **cup**

We **know** that:

- The **space** inside the **cup**
- Spent its whole **life**
- **Serving** people

*Then we might **wonder**
What will **happen** to
The **space** inside the **cup***

*After the cup **breaks**, then:*

*The **life** of
The **space** inside the **cup**
Is **finished***

The **space** inside the **cup**:

- Cannot **continue**
- Without
- The **walls** of the **cup**

*Maybe the **cup**:*

*Will **Cry**
Help*

After The Cup Breaks

When the **cup** does **break**:

- Which is **someday**
- We can **see** here that
- The **space** inside the **cup**
- Will be **alone**

*The **space** inside the **cup**:*

*Will be
All by **itself***

If we **think**, then:

- **Who** would want to **take**
- The **space** inside the **cup**
- **After** the cup **breaks**

The *space* inside the *cup*:

After the *cup breaks*
Will be *used*

So:

After the *cup breaks*
No one would *want*
The *space* inside the *cup*

Continuing Life

The **interesting thing**:

- To **learn** here is
- That
- **After** the *cup breaks*
- There will be **no more**
- **Walls** of the *cup*

So, then:

The *space* inside the *cup*
Will be all *alone*

But:

- If
- The **space** inside the *cup*
- Does not **die**
- Then
- What would **happen** to
- The **space** inside the *cup*

Maybe the *cup*:

Will **Cry**
Help

The Answer

We have **seen**, that:

- When the *cup* **breaks**
- There will be
- **No more**
- **Walls** around the *cup*

Yet:

We can **see** that
The **space** inside the **cup**
Will still **be there**

Sure:

The **space** inside the **cup**
Will be **without**
The **walls** of the **cup**

But:

The **space** inside the **cup**
Will still **be there**

We can **see** this

After the cup **breaks**:

- We might have
- A **hard** time
- To **find**
- The **space** inside the **cup**

Because:

Without the **walls**
Of the **cup** being **there**
Then
The **space** inside the **cup**
Would have **no walls**

Yet:

- The **space** inside the **cup**
- Would be
- **With** The **Great Space**

The:

Great Space
Outside the **cup**
We **know** this

It is:

*A **Vast, Big** space
Outside the cup*

The **space** inside the **cup**:

- Would be **present**
- But
- Not **limited**
- Not **contained**
- **Inside** the **cup**

*Without the walls
Of the **cup** being **there**
Then
The **space** inside the **cup**
Would have **no walls***

So:

- The **space** inside the **cup**
- Would be
- Much less **finite**
- Much less **limited**

*The **space** inside the **cup**:*

*Would still **be there**
With The Great Space*

Being With The Great Space

Without the:

- **Walls** of the **cup**
- **Around** it
- Then
- The **space** inside the **cup**
- Would be **free**
- Unlimited

It will have:

***Merged** with The Great Space
The space **Outside** the **cup***

The **space** inside the **cup**:

- Will be **united**
- With The **Great Space**

*It will be **One**:*

*With Such A
Big Grand Thing
The **Great Space***

Yay

The Fun Part

So, here we **see**:

- The Good **Story**
- The **Space In A Cup**

*The **Story** of:*

*The **Space In A Cup***

*This **space**:*

*Which we **thought** was
Little
Was indeed
Never **alone***

The **Space In A Cup**:

- Was Never **Different**
- Than
- The **Great Space**

*Not **Separate***

But:

Oh My God

The **fun part** is, that:

- The **space** inside the **cup**
- Did not **know**
- That he **had**

- A **relationship** with
- The **Great Space**

So:

*The **point***
*Or **takeaway** for Us*
*In **This** is*
*We don't have to **wait***
*For the **end***

*We **too**:*

*Can **see***
*Can **find out***
*Can **realize***

*We also **have**:*

*A **relationship** with*
*The **Great Space***

Conclusion

Even though:

- We might sometimes **think**
- That
- **Life** is **limited**
- It's not **good enough**
- Or there's not **enough time**
- During each **day**

*We still **have**:*

*Our **choices***
*That we **make***

And:

Like
*The **space** inside the **cup***
*We **have** a **relationship** too*
*With The **Great Space***

We don't have to **be**:

So **limited**

Like **Only**

The **space** inside the **cup**

We **have a relationship** too

With The **Great Space**
