

A Guy From Nowhere

Author: Thomas Lloyd
TheEvenMind

This is My **Article**:

- **A Guy From Nowhere**

*It is **About**:*

*A **Guy**
Whom We Might **Encounter**
Like
During A **Conversation***

In:

- **A Conversation**
- When People Are **Gathered**
- **Speaking** Together
- Then
- Sometimes People **Interrupt**

*This **Article**:*

*Is **About**
A **Situation** Like **That***

*When People Are **Gathered**:*

***Speaking** Together
And
Someone **Interrupts**
Then It is Not
Pleasant*

Often, The **Person**:

- Who **Interrupts**
- Is Not **Related**

*In This **example**:*

*In This **Article**
I **Refer** To
A **Guy** From **Nowhere***

When:

*A Guy From Nowhere
Interrupts A Conversation
It is Not Pleasant*

We Can Look:

About Him

In A Setting

Sometimes:

- People **Gather** Together
- For **Conversation**

When This Occurs:

*It is
In A Setting*

We All **Know:**

- That We Have
- **Conversations**

*People Gather Together
For Conversation*

The Setting:

*May Differ
But Still
We Have Conversations*

Conversation:

In A Setting

Someone Butts In

We **Look At Here:**

- When People Are **Gathered**
- **Speaking** Together

Sometimes:

*In A Conversation
Someone **Interrupts***

A Conversation:

- Is **Going**
- And
- Someone **Butts In**

A Person:

***Unrelated**
Not in The **Conversation**
Says Something*

Often:

- When They
- **Say** Something
- It is Not **Kind**

*Abrupt **Statement:***

*Is The **Description**
Of
Someone **Interrupts***

And:

*Since The **Person**
Is **Unrelated**
Not in The **Conversation**
Then They **Say**
An **Abrupt Statement***

We See:

- This Kind of **Thing**
- **Often** These **Days**

*A **Conversation:***

*Is **Going**
And
Someone **Butts In***

About This Person

We **Have**:

- When People Are **Gathered**
- **Speaking** Together
- Sometimes
- Someone **Interrupts**

Now:

*The **Style** of
Interrupting **Person***

Whoa:

*Do You **See** Their **Style***

These **People**:

- Who **Butt** in
- Are Usually Not **Friendly**

*They **Seem** To:*

*Speak **to** us*

*Or **at** us*

Like

***Lunge** in*

And:

*When They **Do** This*

It is Like They

*Try for **conclusion***

The **Things** That:

- They **Say**
- Often Abrupt **Statement**
- Is Not **Related**

*They Are **Not**:*

Part** of The **Conversation

And:

When They **Do** This
It is Like They
Try for conclusion

They **Seem** To:

Try To
Get a conclusion
The **Things** That
They **Say**

About Conclusion

When **Person**:

- **Interrupts**
- We **See** it

I Mean like:

In A Conversation

And:

When They **Do** This
It is Like They
Try for conclusion

We **See** this:

So **much**
So many **times**

We **do**:

See it
Like
Around us
In the **common**

Now:

- If people
- **Do** this
- **Lunge** at us

In A Conversation:

*Doesn't it **seem** like
For **conclusion***

*I **Think** that it **does***

When They:

- **Interrupt A Conversation**
- Like
- Speaking **to** us
- Speaking **at** us
- Doesn't it **seem** like
- For **conclusion**

Why Conclusion

And:

- When we **see** them
- Like
- **Do** this
- Could that **be** the **end**

Omg:

***Conclusion** is
At the **end***

A Main Point

If Person **interrupts**:

- Like For **Conclusion**
- Then
- **Where** are they **coming** from

***Why** are they:*

***Lunging** for **conclusion**
All of the **time***

***Where** are they **coming** from*

What **kind** of **Person**:

- **Behaves** like **this**
- **Lunging** for **conclusion**
- **All** of the **time**

*A **Main Point** is:*

*Where are they **coming** from*

Being Out of Touch

If we **wonder**:

- **Where** are they **coming** from
- Then
- Are they in **touch**

*To **interrupt** A **Conversation**:*

*Is **Not** A **Good Thing***

*Where are they **coming** from*

*It is **Bad Behavior***

This **idea**:

- **Where** are they **coming** from
- **Suggests** that
- They are **Out of Touch**

*This **Means** like:*

*With the **conversation***

*This **Means** like:*

*With the **time***

*Or **times***

A Proof

If they are:

- **Out of Touch**
- Then
- **A Proof**

Here is an **example**:

A military **guy**
He will be **example**

So:

- This **guy**
- Military **guy**
- Is **near** us

Then:

Like **out of the blue**
Often rather **quickly**
He **lunges**

He **lunges**:

Like
For **conclusion**

He might **say**:

- **That** means **this**
- Or
- I **see** what you are **doing**

He **tries to**:

Sum it up
Conclude

And:

- What he **says**
- **Suggests a definition**
- Of what he **sees**

Often his **statement**:

Is like super **dumb**

He **suggests that**:

He **knows** something
Like **about**
The **existing** conversation

But:

- The **existing** conversation
- Is between **others**
- Omg

*Does he **know**:*

*I don't **think** so*

His Before

Well:

- I don't **like** it
- When **guy** lunges

*When he **enters**:*

*At the **start**
He **seems to be** there*

*He **seems to be**:*

***Nearby**
Or like **present***

*And then he **lunges**:*

*Seemingly **sudden***

This:

*Like what we **see***

We **see** that:

- If he **lunges**
- Then
- **Where** does he **come** from

*His **Before**:*

Where** was he **before

*Before he **came**:*

*In **front** of us
Where was he **before***

*We **see** him:*

*Like **now**
In **front** of us
Where was he **before***

***Where** does he **come** from:*

*His **Before***

Standard Flow

This **guy**:

- In **front** of us
- An interruptor
- **Where** was he **before**

***Where** does he **come** from*

Was he:

- In the **flow**
- Doing **standard** things

*Does he **know**:*

*I don't **think** so*

So:

- Was he
- **Connected** with the **times**

*We must **regard**:*

*The **times***

If he was:

Connected

Then

***Why** does he **do** that*

Interrupt:

- **Try for conclusion**

*Where is the **love**:*

His comrad

Friends

***Any** relationship*

If he is:

- Only **alone**
- Then
- From **Nowhere**

*A **Guy** From **Nowhere**:*

*Looking for **conclusion***

My Approach

When I **see**:

- That they **lunge**
- I **think** about it

I:

*Try and **figure** out*

*Where did they **come** from*

Usually I **determine**:

- That if he **lunges**
- Like
- **Off** the wall
- And **abruptly**
- Then I **think** that
- He is
- **Out of touch**

***Out of touch** is:*

*Not from **connected***

*Not **with** the **current** flow*

Not **with**:

The current conversation

This **seems**:

- He is
- **Out of touch**

If he is:

*Only **alone***

Then

*From **Nowhere***

*A **Guy** From **Nowhere**:*

Looking** for **conclusion

*This **seems**:*

He is

Out of touch

Why Lunge

If this is **so**:

- He is
- **Out of touch**
- Then that would **explain**
- **Why** he **lunges**

*This would be **like**:*

*A **drug** user*

*Who **wants***

*Only something **now***

Omg:

Horrible

*That is too **hard***

If he **lunges**:

- This **guy** is
- Like from **nowhere**

And:

For **conclusion**

Then

He is probably **not**

Well **connected**

So:

Out of touch

ENDING

We see:

- Someone might **interrupt**
- Like in a **conversation**

If a **thing** is:

Made like that

That which would **appear**

Like **guy**

Then

I don't **think** that

It has good **chances**

Not so **likely**:

To **get** it

To **get** the **thing**

The **thing** he wants

Then:

- Maybe for **him**
- There really is
- No **conclusion**

Oh well

Final Conclusion

It is probably **hard**:

- To **reach** conclusion

Generally:

Hard

Many **things**:

- Go **on** and **on**

Many **things**:

Linger

Things take **time**

The interruptor:

Where are they **coming** from
Lunging for **conclusion**
All of the **time**

Let's **think**:

- What is
- **With** the **times**

What is **in**:

A conversation

Like

Between people

A conversation:

- Usually **lasts** a **while**

It never starts:

Abruptly

And then

*Is in **great** shape*

Conversations:

- We **build**

And it is usually:

Fun to **do** it

Build a conversation

We think of things:

*We **Proceed** along
Together*

*In a **conversation:***

*Like
Between people*

Then I **think** that:

- He is
- **Out of touch**

*A **Guy** From **Nowhere***
