

Better Than That

Author: Thomas Lloyd
TheEvenMind

This is My **Article**:

- **Better Than That**

*It is **About**:*

Normal

*Like **usual** things*

When people **meet**:

- Like are **together**
- They spend **time**

Even if only:

Chat

When people are

Together

*They spend **time***

This is **Usual**:

- Common
- So I call it
- **Normal**

Yet:

If things get

Worse

*Like poor **behavior***

*Then that is **not***

*The **same***

Not:

Normal

*Like **usual** things*

So:

- If I **see** this
- Like poor **behavior**
- I remember
- **Better** Than **That**

*I Could **explain***

Meeting with People

I **said** that:

- When people **meet**
- Like are **together**
- They spend **time**

Even if only:

Chat

*They spend **time***

Together

It is **Fun**:

- **Meeting** with People

***About** this:*

I Could

Share A Story

My Way

Everyday:

- Everybody
- We do **tasks**

It could be:

Housework

Errands

Or General

Maintenance

Everyday:

*We all do **tasks***

*So, My **Story***

When:

- People are **around**
- Still, I **do** things

I still must:

Live my life

I Do:

- **Chores**
- Duties
- Tasks
- **Housework**

*And **sometimes:***

*People are **around***

Sharing Info

Not all people:

- Are the **same**

*You are never **sure:***

Who** you **meet

The **point** is:

- Often **times**
- As I **go**
- Doing a **task**
- I share **info**
- Information

For example:

*I **share***

***About** the task*

***About** the function*

*We all **know** this*

When:

- People are **around**
- We stay in **touch**

We might:

Share

***About** the task*

*To stay in **touch***

Staying in Touch

If I:

- Share **info**
- **About** the task
- To stay in **touch**
- It **seems** ok

*We all **know** this*

We might:

Share

***About** the task*

With people

*With **others***

In order to:

Comprehend

Interpret

*Share **info***

When:

- People are **around**
- I share **info**

We like to
Stay on the
Same **page**

Together:

- We like to
- **Stay** on the
- Same **page**

So, for **me** also

With people:

Share **info**
In order to
Comprehend
Interpret

Stay on the:

Same **page**

An Exception

Share **info**:

- **Together**
- With people
- Is **good**

Yet:

If things get
Worse
Like poor **behavior**
Then that is **not**
The **same**

Not:

Normal
Like **usual** things

I **prefer** normal

So:

- If I **see** this
- Like poor **behavior**
- I remember
- Our **constant**

*People **together**:*

*Spending **time***

*Sharing **info***

Normal

*Like **usual** things*

*This **continuing**:*

Has some

***Constant** in it*

*A **continuing** thing:*

*Some **Constant***

*Not an **exception***

Blunder

Then what about:

- Occasional **blunder**

If someone:

Intrudes

*Or has **trouble***

*Not the **same***

If things get:

Worse

*Like poor **behavior***

*Then that is **not***

*The **same***

*I **prefer** normal*

So:

- I **like** the
- **Good** time **together**

Then I would:

Remember
Better Than That

A dumb:

Interruption
Should not end
Time together

Too dumb

The Intruder

Just on the **side:**

- **About** intruder

If someone:

Intrudes
Or has trouble
In a going
Conversation
That's no good

For me:

Too dumb

I don't want to:

- **Lose**
- To BS

Too cheap

A Quick Description

The Too Dumb

If someone:

- **Intrudes**
- Or has **trouble**
- In a going
- **Conversation**
- That's no **good**

*It can **happen***

It could be:

***Common** too*
Whoa

When they **do** that:

- Too **dumb**

*It **seems**:*

*Too **cheap***

***Description** is:*

*Only **One D***

Only One D

It **looks** only:

- **Superficial**
- Jive
- Or **trash**

If:

*Too **dumb***
*Too **cheap***
*Then no **good***

I don't want to:

Lose
To BS

So I **Think**:

- **Better** Than **That**

*I already **have**:*

Better Than **That**

For me:

Only **One D**

Not **good** enough

FACT

If I:

- **Share** with people
- Share **info**
- There is a
- **Reason**

I might be:

Doing

Chores

Duties

Tasks

Housework

And:

- Sometimes
- People are **around**

I might:

Share

About the task

With people

*With **others***

In order to:

Comprehend

Interpret

*Share **info***

When:

- People are **around**
- We like to
- **Stay** on the
- Same **page**

Together:

We like to
Stay on the
Same ***page***

So:

- Any **intruder**
- On **this**
- Is **not** as **good**

He looks only:

Superficial
Jive
Or ***trash***

That is:

Too dumb
Too cheap

I Have:

Better Than That

I Have:

Substance

On Substance

If I:

- Share **info**
- With people
- With **others**
- It makes **sense**

*If I **Do**:*

*It has **facts***

I **try** to:

- Make **sense**
- With people
- With **others**

Together:

*We like to
Stay on the
Same **page***

So:

- Another **word** for
- This is
- **Substance**

It is ok:

*To have **substance***

Facts, like:

***Based** on something
Substance*

Again:

- For A **Reason**

Together:

*We like to
Stay on the
Same **page***

Any **intruder**:

- On this
- Is **not** as **good**

*He **looks** only:*

Superficial

Superficial:

Jive
Or trash

Too other

That is:

Too dumb
Too cheap

I Have:

- **Better Than That**

I Have:

Substance

Substance is:

Better Than That

Better Than:

Too dumb
Too cheap

Better Than:

Superficial
Jive
Or trash

With people:

- Making **sense**
- Listening
- And **communicating**

These are not:

Superficial things

Not just:

Trash

Not just:

One D

ENDING

Better Than That:

- Means **substance**

*This is **not**:*

*Just **Superficial***

If I See **Bad**:

- Like **intruder**
- I Have
- **Better Than That**

I Have:

Substance

It is ok:

*To have **substance***

I Have **Facts**:

- **Based** on something
- **Substance**

Better Than That:

*A **Dumb** intruder*

Article is:

Better Than That
