Reach And Lasting

Author: Thomas Lloyd
TheEvenMind

This is My **Article:**

- **Reach And Lasting**

*It is **About:***

Definition
Like
*Of **Reach***

The **Word** Reach:

- We **Know**

A Quick example:

*The **man***
***Reached** over*
*For an **orange***

*We **Know** Reach*

Still, **Here:**

- I will **review**
- Reach **definition**

*The **Reason** is:*

*For Article **Title***
Reach** And **Lasting

Proper Reach:

- By **Definition**
- Can Have **Lasting**

*Let's **See***

Why Reach

We **Know** Reach

Always in Our **Day:**

- We **See** Reach

Example was:

*The **man**
Reached over
For an **orange***

*So many **times:***

*In Our **Day**
We **See** Reach*

In the **morning:**

- Waking up
- We **Reach**

***End** of sleep
Reach the morning
Or even
Reach for the
Alarm **Clock***

*So many **times:***

*In Our **Day**
We **See** Reach*

And Our:

- **Appointments**
- Whoa

We like to:

*Reach **them** too*

Then **Reach:**

- We **Know**

*So many **times:***

*In Our **Day**
We **See** Reach*

Reach Definition

This is **fun:**

- Reach **Definition**

There are:

*Several **angles***
Presented
***About** Reach*

*Look at **these:***

*To **arrive** at*
*To get as **far** as*
*To **reach***

There is **distance:**

- In **Reach**

For example:

*We **know** when*
Something is
***Not** within reach*

This is like:

Out** of **Reach

So:

- There is **distance**
- In **Reach**

*A **term** for this:*

Range

*What **is:***

*The **Range***
*Of it's **reach***

About Range

A **Baseball:**

- Can **throw**
- **Limited** range

*Not **too** far*

Even **spit:**

- **Limited** range
- Not **too** far

So:

*There is **distance***
*In **Reach***
*Like **Range***

No Reach is:

- **Unlimited**

*There is **distance***
*In **Reach***
*Like **Range***

Then:

- When we **see**
- Reach **often**
- We **know** it

When someone:

***Reaches** for something*
Usually
*It makes **sense***

Reach Range

Remember:

- There is **distance**
- In **Reach**
- Like **Range**

Usually:

*The **distance**
Makes **sense***

Example was:

*The **man**
Reached over
For an **orange***

What about:

- **Exception**

What if:

*There was
Exception*

Like:

*What if
The **man**
Reached over
For an **orange**
But too **far***

Omg

Besides **laughing:**

- We would **see** it

*We would **think:***

*Oh
Too **far***

*Maybe **also:***

*He didn't **get** it*

We would **see:**

- **Exception**

Pg 5

*Reach **Range:***

*He **tried***
*Too **far***

So we would **wonder:**

- How **far**
- The **reach**

*There is **distance***
*In **Reach***
*Like **Range***

Usually:

*The **distance***
*Makes **sense***

But there:

- Could be
- **Exception**

More Reach

Article is:

- **Reach** And **Lasting**

*A **proper** reach:*

*That makes **sense***
No problem

So then:

*The **lasting***

Proper Reach:

- That **makes** sense
- Is **usual**

*With no **Exception:***

*It **seems** normal*

*So **normal** reach:*

*Reach **Range***
***Seems** ok*

Then:

- **Normal** Reach
- **Has** some **lasting**

Usually:

*It can **stay***

Bigger Reach

I am **normal:**

- So I **do**
- Normal **things**

Then usually:

*No **big** reach*

***Normal** life:*

*Not **much***
***Big** reach*

*To **reach:***

*End of the **day***
*With **no** error*
*Is **ok** here*

But **some** get:

- **Ambitious**

*They might **try:***

***Bigger** Reach*

Hey, we have:

Seen** it **around

Bigger Reach:

- Common **examples**

Authority
Jurisdiction

*Whatever the **reason:***

*We have **seen***
***Bigger** Reach*

Common reach:

- More **easy**
- To **understand**

Yet:

***Bigger** Reach*
*We have **seen** it*

If **bigger:**

- How **far**
- Can he **go**

***Distance** and*
Range

*And **bigger:***

*Often **costs** more*

*We **know** this*

An example:

- To t**ry** to
- **Reach**
- For **two** things

***Distance** and:*

Range
***Bigger** things*
***Cost** more*

Pg 8

*It is **harder:***

Time** matters **too

***Bigger** Reach:*

*For **me***
*Not so **common***

About Bigger

Speech has **reach:**

- Also

*To talk **big***
*Talk **long***
*Cover **many** topics*

Bigger** is **harder

So:

- About **Bigger**

*In **speech:***

***Training** matters*

Practice** we **know

*To talk **big***
*Talk **long***
*Cover **many** topics*

Bigger** is **harder

Speech also:

- **Includes**
- **Tone** and **manner**

***Style** is not:*

Everything

Even **intent:**

- **Counts**
- In **speech**

So:

Bigger** is **harder

*And our **topic:***

*With **lasting**
Bigger can get
Complicated*

Whoa

Seeing Reach

Common reach:

- For me
- Hard **enough**

Everyday is:

Unique

*Hard **enough:***

The Everyday

Bigger** is **harder

Doing everyday:

- **Finishing**
- Is hard **enough**

*I want **mine:***

*To have **lasting***

Workers like:

- Their **days**
- To **count** also

To Have Lasting

Our everyday:

- We **seem**
- **Qualified** for

We usually:

Have *capacity*
For **this**
The **Everyday**

So **hopefully:**

- Easy **enough**
- To **understand**

We **want:**

The **lasting**

Two Puns

Reach can **vary:**

- Two **puns**

One **pun** is:

The **man**
Worked so **hard**
He **reached**
The **bottom**

Pun **two** is:

- The **thief**

He **thought** *that*
He could
Reach *for*
An **orange**
But **no**

Reach can **vary:**

- Two **puns**

Serious Example

Bigger Reach:

- **Costs** more

Bigger is **harder**

Remember:

- **Qualified**
- Capacity
- **Authority**

For a **reach:**

To **amount** *to*
Lasting
It must **qualify**

There are **things:**

- Like **agreement**
- Verification

How is the:

Bigger Reach
Interpreted

In:

- **Common** matters
- We don't **need**
- **Bigger** Reach

But **sometimes:**

There **is**

Sudden reach:

Can be **shocking**

Examples:

*The **thief***
Reached** from **nowhere

Reach** the **bottom
*To **fall***

Without **training:**

- **Bigger** is **harder**

Might not be:

Possible

*Then **could** be:*

Unqualified

Lasting has:

- **Time** factor

This is like:

Duration

***Over** time:*

Duration

Lasting** over **time

Tragedy

What if:

- The **President**
- Issues A **Command**

*We have **seen** this*

Push** the **button
Call** a **war

Pg 13

And the **military:**

- **Jumps** into **action**

Whoa:

*We have **seen** this*

Example is:

- **Bigger** reach

Whoa:

*So **big***

Like:

*Me **never***

The Point

If **bigger** reach:

- Like a **command**
- **Occurs**

Is it:

Qualified
Proper
***With** training*

Is it:

Considerate
Inclusive

*This **rarely:***

Speaks** for **others

The Main **Point** is:

- **Reach** has **distance**

*We **call** this:*

Range

So briefly:

- If a big
- **Command**
- Is **given**
- Does it **get** to
- **Lasting**

*If **not,** then:*

***Floating** I guess*

*Many **things:***

*Make **sense***
But not
Everything

Whoa:

- Then **exception**

***Article** is:*

Reach** And **Lasting
