

Other Side

Author: Thomas Lloyd
TheEvenMind

This is My **Article**:

- **Other Side**

*It is **About**:*

*Living **Life***

When we **do**:

- Living **Life**
- There are
- Many **Parts**

Like:

Day to day

Life

*Many **Parts***

So:

- With
- Many **Parts**
- Day to day
- **Life**
- **Complex**

*Many **Parts**:*

***Details** too*

*Makes **Complex***

And it is:

- Only **One** Life
- **Each**

Yet:

*The Many **Parts***

Setting

Where we **live**:

- Our **Setting**

*Our **Town**
Neighborhood
Neighbors*

*Where we **live**:*

*Our **Setting***

And we **like**:

- All of these
- **Things**

*Our **Town**
Neighborhood
Neighbors*

*We **want** them:*

*To be **ok***

We are the **one**:

- To **manage** it

*I **think** that:*

*We **know** this*

And:

- With
- Life **Complex**
- Many **Parts**
- We are **busy**

*Let us **say**:*

*We are **busy***

Also:

- We are the **one**
- To **manage** it

Day to day

And it is:

- Only **One** Life
- **Each**
- Our **Life**

*I am **using**:*

Day to day

*Where we **live**:*

*Our **Setting***

Description

Since:

- Each **One**
- Only **One** Life
- We must be
- **Cool**

With

*Life **Complex***

*Many **Parts***

*We are **busy***

And We are:

*The **one** to*

***Manage** it*

Well:

- **Today** it looks
- **Slim**

I could say:

*Almost **Crazy***

Whoa:

- Have you
- **Seen** them

Oh my

People run **loco**:

- **Flinging** this
- **Shooting** that
- And **slurs**

I could say:

*Almost **Crazy***

Then:

- To **manage** it

Seeing the:

Description

Then

How to

***Manage** it*

***Today** it looks*

Slim

One Sided

I mention:

- People **around**

*People run **loco**:*

***Flinging** this*

***Shooting** that*

*And **slurs***

Seeing the:

- **Description**
- Then
- **How to**
- **Manage it**

With:

*Many **Parts***

Day to day

Life

Complex

*Many **Parts:***

***Details** too*

*Makes **Complex***

Then

How to

Manage it

So many **people:**

- **Run** the
- Same **thing**
- I don't **know**
- About **Manage it**

*Each **One:***

*Only **One** Life*

*With so **much:***

Loco

*Like **indulgence***

*It looks **slim***

Perhaps **no:**

- **Results**

Missing

Missing

Missing

***Another** Description*

Then
How to
Manage it

I **think** that:

- It **looks**
- **One** sided

Only one sided

Omg

Point

*This is **Point***

This **manifestation**:

- **Pity** party
- Messing
- Almost **slob**
- No **good**

There is:

*World **History***

Basics are needed

Survival is
Important

And:

- Each **One**
- Only **One** Life

Omg

It looks:

One sided
Only one sided

*That's not **good***

Other people:

- **Exist** too

Only **one** sided:

No good **enough**

Lacking

If:

- **Only** one sided
- Then **lacking**

Balance cannot:

Interpret
Only **one** sided

If:

Only **one** sided
Then **lacking**

So:

- It would not
- **Continue**

Math would say:

It would not
Continue

And:

- **Others** would
- **See** this **too**

Omg

If:

Only one sided
Then **lacking**

Main Point

I **see** so:

- Many **people**
- Like **this**

Appearing:

Only **one** sided

Then:

- For **balance**
- An **other** side
- Would be **needed**

Again:

About **balance**

Not an **opposite**:

- Closer to **balance**

Common sense

Makes sense

So:

- Main **Point** is
- The **lacking**

I think:

Many people

Only **one** sided

And:

- I don't **think**
- They have **made**
- An **other** side

It is like:

***Running a
Pair of opposites
But staying on
One side only***

I think:

- **Many** people
- Only **one** sided

And:

*I don't **think**
They have **made**
An **other** side*

People can:

- **See** this

*I don't **think**
It looks **good***

Danger danger

Main **Point** is:

- The **lacking**

*It **looks** like:*

Danger danger

Article is:

Other Side
