## Mental Health Dilemma

Author: Thomas Lloyd
TheEvenMind
November 14, 2023

This is My **Article:**

- Mental Health Dilemma

*It is **About:***

*Mental Health system*
*USA*

*I **Call** this:*

*MH system*

This **system:**

- Mental Health system
- Is **in** USA

***Here** in:*

*This **Article***
*I **talk** about*
*MH system*

MH system:

- Has a **population**

*People **held** there:*

*The **population***

***These** are the:*

***Clients***

There are:

- Many **clients**
- In MH system

***Many** of these:*

*Are **there** for*
*A long **time***

***Some** clients:*

*Maybe 50 **years***
*__Held__*

There are:

- **Many** clients
- In MH system

*So **this** is:*

*Much **time** spent*

***Some** clients:*

*Maybe 50 **years***
*__Held__*

And if we:

- **Look** at the
- **Curriculum**
- Not much **offered**

*__Most__ clients:*

*In MH system*
*Just **sit** all day*

*Passing **time** is:*

*Main **activity***

This **Article:**

- Refers to **Dilemma**

*__Title__ is:*

*Mental Health **Dilemma***

The **Dilemma** is:

- Only **bad** choices

*We can **see** more*

## The Setting

Article **Setting** is USA

*Remember:*

*USA*
*MH system*
*Is **in** USA*

**Here:**

- Our **setting**
- MH system has
- A **population**

*The **people:***

***Held** there*
*The **population***

*The **Clients***

We can **guess:**

- USA
- MH system
- Would be **nothing**
- Without **Clients**

*The **Clients:***

*The **prisoners***
***Held** there*

*USA MH system*

So:

- Article **Setting** is USA

*Remember:*

*USA*
*MH system*
*Is **in** USA*

## The Population

In MH system:

- The **population**

*The **people:***

***Held** there*
*The **population***

*The **Clients***

It is **said:**

- USA MH system
- **Has** 90% of
- USA **people**

***Clients** are:*

*The **population***

*There are:*

***Many** clients*
*In MH system*

Whoa:

- 90% of
- USA **people**
- That's A **Lot**

*The **Client** Population:*

*USA MH system*
***Many** people*

# Facilities

Whoa:

- The **holding** centers

*Facilities*

Often a:

- **Hospital**
- Facilities

*Clients are:*

*The population*

*There are:*

*Many clients*
*In MH system*

It is **said:**

- USA MH system
- **Has** 90% of
- USA **people**

*Many clients*
*In MH system*

*Held*

*The holding centers:*

*Facilities*

The **Facilities:**

- **Lackluster**

*Boring places*
*Many clients*
*And staff*

*The **Facilities:***

***Lackluster***

Not **much** to:

- **Do** there

*Many **clients:***

*Much **time** spent*

*Some **clients:***

*Maybe 50 **years**
**Held***

And if we:

- **Look** at the
- **Curriculum**
- Not much **offered**

*The **Facilities:***

***Lackluster***

*Most **clients:***

*In MH system
Just **sit** all day*

*Passing **time** is:*

*Main **activity***

**So:**

- MH system
- **Lackluster**

*The **Facilities:***

***Lackluster***

***Boring** places
Many **clients**
And **staff***

# Curriculum

What to **do** there:

- MH system
- USA

*Not **much***

*The **Facilities:***

*Lackluster*

Most **clients:**

- In MH system
- Just **sit** all day

*Passing **time** is:*

*Main **activity***

So **this** is:

- **Curriculum**

*What to **do** there:*

*Not **much***

*Lackluster*

*Most **clients:***

*In MH system*
*Just **sit** all day*

*Curriculum*

# Main Line

Well:

- If **clients**
- Just **sit** all day
- What **happens**

*What does **staff** do*

Here we **see:**

- **Main** Line

*Since **clients:***

*Just **sit** all day*
***Occasional***
*Staff **visit***

***Look** in*
***Check** up*
***Assess***

*Are clients **there***
*Are they **ok***

**Main** Line is:

- **Occasional**
- Staff **visit**
- And **look**

**Then,** at **exit:**

Don't bother to
Learn anything new

*Staff **says:***

*At **exit***
*Don't bother to*
*Learn anything new*

Then **clients:**

- Just **sit** all day

*The **Facilities:***

***Lackluster***

***Occasional***
*Staff **visit***

*Then **clients:***

*Just **sit** all day*

***Occasional***
*Staff **visit***
*And **look***

**Then,** at **exit:**

- Don't bother to
- Learn anything new

## The Dilemma

**Dilemma** is:

- **Defined**

*Two **Bad** Choices*

If a **person:**

- Has to **decide**
- Make a **decision**
- But **bad** choices

*If there are:*

*Only*
*Two **Bad** Choices*
*This is **Dilemma***

*We **see** that **here***

***Article** is:*

*Mental Health **Dilemma***

USA MH system:

- 90% USA **people**
- The **population**
- Then
- **What** to **do**

***Choices* are *slim***
*Facilities **boring***
***Lackluster***

***Then:***

***What* to *do***

**Dilemma:**

- Two **Bad** Choices

*If a **person:***

*Has to **decide***
*Make a **decision***
*But **bad** choices*

*If there are:*

*Only*
*Two **Bad** Choices*
*This is **Dilemma***

*90% USA **people***
***From** USA*
*Many **people***

And **Curriculum:**

- **What** to **do** there

*Not **much:***

***Lackluster***

*Most **clients:***

*In MH system*
*Just **sit** all day*

*Then:*

***What* to *do***

***Dilemma:***

*Whoa*

## Two Facts

The **Main** Line:

- Don't bother to
- Learn anything new

*The **Containment:***

*Of USA **People***
***In** MH system*
*90% of USA **people***

*Many People **Held:***

*A Long **Time***
*Many **Years***

**Also:**

- These **People** are
- **Labeled**
- And **Assigned**
- **Instructions**

*Definitions*

The **Situation:**

- The **Clients**
- Are **Assigned**
- Large Daily **Doses**
- **Medications**

*If They:*

*Don't **Take** The*
*Daily **Medications***
*Error*

MH system:

- **Staff**
- Can **Call** The **Police**

*MH system:*

**Staff**
*Is*
*Like A* **Court**
*Like A* **Doctor**

*If they* **choose:**

**Staff**
*Can* **Call** *The* **Police**

If **patients:**

- Don't **Follow**
- **Instructions**
- **Staff**
- Can **Call** The **Police**

***Then:***

*What to* **do**
**Clients**

**Dilemma:**

- Two **Bad** Choices

*If a* **person:**

*Has to* **decide**
*Make a* **decision**
*But* **bad** *choices*

*If there are:*

*Only*
*Two* **Bad** *Choices*
*This is* **Dilemma**

*90% USA* **people**
**From** *USA*
*Many* **people**

## The Difficulty

There is **Difficulty**

*Client **Population:***

*People **Held***
*A long **time***

*Medications **forced***

***Behavior***
*Requirements*

*Stay **low***

Then **what** to **do:**

- Client **difficulty**

*Staff **Main** Line:*

*Don't bother to*
*Learn anything new*

*If they **choose:***

***Staff***
*Can **Call** The **Police***

If **patients:**

- Don't **Follow**
- **Instructions**
- **Staff**
- Can **Call** The **Police**

***Then:***

*What to **do***
***Clients***

**Dilemma:**

- Two **Bad** Choices

*If a **person:***

*Has to **decide***
*Make a **decision***
*But **bad** choices*

*If there are:*

*Only*
*Two **Bad** Choices*
*This is **Dilemma***

*90% USA **people***
***From** USA*
*Many **people***

Daily **Medications:**

- **Forced**

*If not **take:***
***Error***

***Staff***
*Can **Call** The **Police***

A **Lot** of **Difficulty:**

- **Client** difficulty

*Staff **Main** Line:*

*Don't bother to*
*Learn anything new*

## System Makeup

Client **population:**

- Is **Poor** People

*Maybe **lackluster:***

*But **Poor** People*

Staff **Makeup:**

- Psych doctors

*USA MH system:*

***Fronted** by*
*Psych doctors*

*They **Assign:***

***Instruction** To **Clients***

Staff **Main** Line:

- Don't bother to
- Learn anything new

*Main **Line** is:*

*Main **Training***

*Don't bother to*
*Learn anything new*

Still:

- After A Long **Time**

*Don't bother to*
*Learn anything new*

***That** is About **All:***

*In USA*
*Mental Health system*

Main **Line** is:

- Main **Training**

*Don't bother to*
*Learn anything new*

*The **One** Instruction:*

*Don't bother to*
*Learn anything new*

## No Choice

MH system:

- Not **voluntary**

*Forced hold:*

*Client population*

Only **Choice:**

- **No** choice

*If error:*

**Staff**
Can **Call** The **Police**

Staff **Makeup:**

- Psych doctors

*USA MH system:*

**Fronted** by
Psych doctors

*They Assign:*

*Instruction To Clients*

**Forced** hold:

- **Client** population

*Only Choice:*

*No choice*

**Follow** Instructions
From **Staff**

So clients **have:**

- No **Choice** At **All**

*Zero curriculum*

*Take Large Doses*
*Daily Medications*

So **this:**

- A **Difficulty** for
- **Client** Population

*90% USA **People***
***Held***
*MH system*

*MH system:*

***Fronted** by*
*Psych doctors*

*They **Assign** Instructions*

*This is **Like:***

*No **Choice***

## About Psych Doctors

This is A **Joke:**

- MH system
- **Fronted** by
- Psych doctors

*What I **mean** is:*

*Let's **See** A*
*Psych doctor*

Psych doctor:

- **Autistic**
- Like 2 out of 1

*So:*

*Not a **person***

*Nor a **doctor***

**Boasting** things:

- Like **proud**

*Yet not a **noun***

Only **occupied:**

- With **themselves**

*They **know:***

***Nothing***

*This is **like:***

*An **individual***

*Not **professional***

So:

- **What** is it

*We don't **know:***

*Yet **neither** do **they***

Maybe:

- A Christian **Joke**

*Like the **phrase:***

*If you don't **know***
***What** it is*
*Then*
*Bow **down** to it*

*Not **Impressive***

And **from:**

- Something that
- Doesn't **Know** Anything

*I don't **think:***

*They **Believe** in*
*God*
*The **Creator***

## ENDING

Well, **this** is it:

- **ENDING**

*Hope you:*

*Have **Made** it **here***

The **Idea** of:

- USA MH system
- is Not **Much**

*Not **Much** At **All***

*90% of **People** USA*

They Have Been:

- **Labeled**
- And **Assigned** Instructions
- By **staff**

*Large Daily **Doses**
**Medication***

*If **Error:***

***Staff**
Can **Call** The **Police***

Main **Line** is:

- Main **Training**

*Don't bother to
Learn anything new*

The One **Instruction:**

- Don't bother to
- Learn anything new

Pg 19

# What To Do

With so:

- Many **people**
- **In** MH system

*90% of USA **People***
*A **Large** Amount*

If psych doctors:

- Are A **Joke**
- **What** to do

*People **Suffer:***

***Under** This*
*Then **What** To **Do***

# Recommendation

For:

- **Recommendation**
- Only **one** line

***Stick** with the*
***Old** stuff*
*The **ways** that **last***

*If **People:***

***Lasted** Up To **Here***
*Then*
*Their **Ways** May*
***Last***

***Article** is:*

*Mental Health **Dilemma***
