

So Dumb

Author: Thomas Lloyd
TheEvenMind

This is My **Article**:

- **So Dumb**

*It is **About**:*

Conversation
*People **Speaking***
Together

We like **conversation**:

- It can be
- A **good** time

*Many good **ideas**:*

Come from
Conversation

Since it **flows**:

- Conversation
- Then the **content**
- Is **good**

So we don't want:

Dumb

*No **dumb**:*

In Conversation
We don't want
Dumb

*About **Dumb**:*

Dumb is not *knowing*

The less **dumb**:

- The **better**

Definition Dumb

Sometimes **dumb**:

- Could come **around**

In Conversation:

*We don't want
Dumb*

Dumb** is not **knowing

Another **word** for this:

- Is **short**

Short:

*Not having **enough**
So **dumb***

This would be:

- **Limited**

***Dumb** would be:*

***Limited**
Not having **enough***

Then:

- Not **complete**

***Dumb** would be:*

***Short**
Not having **enough***

*No **Dumb** in **Conversation***

In Conversation:

Dumb is
No **help**
No **dumb**

Article is called:

So Dumb

About Conversation

Topic Description

About Conversation:

- Often times
- We **see** them

*We **see**:*

*People **together**
Conversation*

People **gather**:

- And **chat**
- Often times

This is like:

- **Commonly**

When people:

Gather and **chat**
They have conversation

*Talk about **this**
Talk about **that**
Conversation*

*So we **see**:*

Commonly this
*Could **occur***

In Conversation

When:

- People are **together**
- Like in Conversation
- They spend
- **Time** together

*Talk about **this***

*Talk about **that***

Conversation

So the conversation:

- **Is** something

By:

***Is** something*

I mean

*A **construct***

Conversations:

- **Build**
- Like
- People **put**
- **Time** into it

*So, a **construct***

Then this:

Conversation

*Is like a **thing***

*A **thing** like*

*A **construct***

*But not an **object***

Vague Conversation

Conversation is:

- A **construct**

As:

*A **construct***

*A **thing***

*A conversation **seems***

Vague

It is:

- Not an **object**
- Like **solid**
- No

Yet it is:

Still

*A **construct***

*A thing **made***

The **people**:

- In a conversation
- **Make** the conversation

Conversations:

Build

Like

*People **put***

***Time** into it*

So:

*A **construct***

*A thing **made***

A Conversation

*But not an **object***

Stealing The Moment

Sure:

- This **sounds**
- Dumb

Yet:

Remember the title
So Dumb

This **Article** is:

So Dumb

And since:

We **talk** about
Conversation
I tell you **why**

Stealing The Moment:

- Whoa
- Some people **try** it

And:

The **moment** is
Interesting

In the **moment**:

- **Occurs** conversation

Talk about **this**
Talk about **that**
Conversation

In the **moment**:

Some people **try**
Stealing The Moment

By Interrupt

Commonly, we **see**:

- People
- **Gather** and **chat**
- **Have** conversation

This:

Conversation
*Is like a **thing***
*A **construct***

The **people**:

- In a conversation
- **Make** the conversation

Conversations:

Build
Like
*People **put***
***Time** into it*

And this:

Conversation
*Is like a **thing***
*A **construct***

*But not an **object***

Yet:

- In the **moment**
- Like in conversation
- Some people **interrupt**

And this is:

*What I **mean** by*
Stealing The Moment

An **intruder**:

- With a **comment**
- Trying to **take over**
- A conversation

*I **think** that:*

*We **see** this*
*All of the **time***

Get A Load of This

Description:

- **Intruder**

Whoa:

*These **guys***

They might:

- **Stand** to the **side**
- And **watch**
- A conversation

*They may **listen**:*

*Maybe **no***

Yet:

*As **Intruder**
That is **no** good*

Oooh:

Shifty

*Clever **maybe** too*

These **guys**:

- I call
- So **Dumb**

Description:

Intruder

Why No Good

The **reason** is:

- They **prey** on
- The conversation

Watching
Listening
Then **action**

Usually a **comment**:

- **From** them
- But what **kind**

And:

They **think**
Conversation is
A **thing**

It **may** be:

A **thing**
But not an **object**

Still:

- As **Intruder**
- They **want** something

So we might:

See them
Trying to
Steal The Moment

They **prey** on:

The conversation

Watching
Listening
Then **action**

Usually a **comment**:

From them
But what **kind**

Some **comment**:

To **Steal The Moment**
To **dominate**

This is always:

Surprising

*Sometimes **shock***

Summation

If **intruder**:

- **Preys** on
- A conversation
- We **see** him

Watching

Listening

*Then **action***

*Usually a **comment**:*

From *them*

*But what **kind***

*They **try** to:*

Steal The Moment

*To **dominate***

And, the **point** is:

- I **think** that
- They **see**
- The conversation
- As an **object**

So:

*If they **intrude***

*Then **throw** a **comment***

*To **Steal The Moment***

Whoa

I think *that*

*They **see***

The conversation

*As an **object***

Looking Dumb

To **Steal** The **Moment**:

- They **want** to
- **Walk** away
- **With** the conversation

*It is not an **object***

The **people**:

- In a conversation
- **Make** the conversation

Conversations:

Build

Like

People **put**

Time into it

*And **this**:*

Conversation

*Is like a **thing***

*A **construct***

*But not an **object***

So to:

- **Steal** a conversation
- Like an **object**
- Is **dumb**

*These **guys**:*

*I **call***

*So **Dumb***

And to:

***Steal** a conversation*

*Like an **object***

*Would be a **thief***

***Boo** on that*

Quick Example

We **see** this **around**:

- So I **show**
- Quick **example**

*People may **gather***

Chat

*And **have** conversation*

Commonly:

- We could **see** this

Sometimes:

*When it **goes***

***Intruder** might*

***Come** in*

*He could **be** there:*

Watching

Listening

*Then **action***

*Usually a **comment**:*

***From** them*

*But what **kind***

And if:

- The conversation
- **Attracts** him
- Like is **good**
- He might **act**

*Usually a **comment***

So:

- If he **thinks**
- Conversation is
- An **object**
- Then he **steals** it

Usually a *comment*:

From them
But what kind

He might **think**:

- **Riches** and **wealth**
- **Bundle** of **ideas**

Maybe a *treasure*

But:

- One **thing** for **sure**
- If he **steals**
- The conversation
- That's **different**

Usually, then:

It's gone

I don't think
We want this

ENDING

The **people**:

- In a conversation
- **Make** the conversation

Conversations:

Build
Like
People put
Time into it

And this:

Conversation
Is like a thing
A construct

But not an object

A **good** conversation:

- Is like
- A **treasure**

*We should **not**:*

*Let it get **away***

*Don't let **intruder**:*

***Steal** it*

That is:

*So **Dumb***

***Article** is called:*
