This is Article:

- From A to B

About doing things

- Us

Doing things

We know:

- Doing things

chores
tasks
duties

These daily

Us
Doing things

Us yes

Doing things

Steps

So us:

- Known =

Doing things

This

Doing things

Example =

chores
tasks
duties

Us
Doing things

Most things we
Do

- Have steps

Think

chores
tasks
duties

- Idea =

start
middle
finish

- Like steps

Steps in a
Process

- Process =

chores
tasks
duties

All have a
Process

Like

start
middle
finish

So steps in a
Process

Title

- Article =

From A to B

To be simple
We can call
Process

- This process

Process with

Steps in a
Process

- From A to B

Process like

chores
tasks
duties

All have an
Order

Like

start
middle
finish

And for
Convenience

We can use

- start = a

And

- finish = b

Start at a
Finish at b

So title says

Steps in a
Process =

- From A to B

Title =

From A to B

Like a process

From A to B

Daily

Us daily:

- Doing things

Example =

chores
tasks
duties

And each one
Of these
Has

start
middle
finish

Another term we
Know

beginning
middle
end

Steps in a
Process =

- From A to B

Like

start
middle
finish

Steps in a
Process =

From A to B

Daily we
See these

Us yes daily

chores
tasks
duties

With

start
middle
finish

Ok

Process

So this:

- From A to B

Is really a
Process

Remember

Steps in a
Process

chores
tasks
duties

- With order

start
middle
finish

Each one yes

Each one with
Steps

Each one with
From A to B

- Process

Here

So title:

- From A to B

Is really a
Process

Like a voyage:

- Traveling

Steps in a
Process

Like traveling

Traveling
From A To B

Each task yes

Start at a
Finish at b

Each task yes

Each

chores
tasks
duties

With steps in it

Like
From A to B

Process
From A to B

Here in article
We see idea of

Going from one
Place to another

Like a voyage

Traveling:

Steps in a
Process

Like traveling
From A To B

Each task yes

Us daily yes
Here

Phrase

Here:

- Same thing

A common phrase

A known phrase
Old phrase

- Name =

Going from
A to B

This is a common
Known thing

Going from
A to B

Most people have
Probably heard of
This yes

Phrase
Common phrase

Going from
A to B

Like us
Daily tasks

Going from
A to B

Steps in a
Process

Going from
A to B

Us daily yes
Ok

Working

Us daily:

- Doing things

Working

Going from
A to B

We all do:

Many tasks during
Our day

Maybe we:

- Make the bed

Maybe get
Dressed for work

We all do
Many tasks during
Our day

And often when we
Do a task

We face idea of

Going from
A to B

Meaning =

Getting to the goal
Of our task

Getting to the
Destination of our
Task

Going from
A to B

Remember for
Convenience

We can use

start = a
And
finish = b

Start at a
Finish at b

Each task yes
Us yes
Ok

Starting

Starting
Pg 9

When we:

- Start

Simply us yes

Each task
Us yes

We always start
From

- Where we are

Each task

We always start
From
Where we are

So us:

- On each task

We always start
From
Where we are

Then start = a
And finish = b

Start at a

On each task
Yes

We always start
From
Where we are

Start at a
Yes

Technical

- For a moment

Mention a point

- Technical point

Complex point

- Said =

Us
Doing things

Most things we
Do
Have steps

Think

chores
tasks
duties

Each has

start
middle
finish

- Like steps

Steps in a
Process

Well technically
Most processes

chores
tasks
duties

- Have steps

Point here =

They can be
Complex

Since tasks can
Be complex

I include here
In article

Idea of a
Plan

Having a plan
Making a plan

For doing a task

Only mention it

Yes

Idea of a
Plan

More

Us:

- Daily

To consider doing
Any task or action

We must have some
Kind of Plan

Even a project

We must have some
Kind of Plan

Many things we do
We already know
How to do

Yes

But some tasks
Are complex

So we might use
A plan

Example

A process:

- Like daily

Example might be

Preparing a cup of
Coffee

Here
In this example

Us
We usually know
How the process
Goes

- Meaning =

For to make a
Cup of coffee

We would go to
The coffee maker

Coffee machine

We would put in
Coffee and water

And then turn on
The machine

Us preparing coffee
Maybe daily

And we know
For a cup of coffee

After to turn on the
Machine

The machine makes
The cup of coffee
For us

Us yes
Maybe daily

And to finish
The coffee comes out
In the cup

So then we would
Drink the hot cup of
Coffee

Yay

Example us
Preparing coffee

Value

Continuing:

- This

Us
As we would drink
The cup of coffee

- We would know

We had prepared
A cup of coffee

Knowing while drinking

This knowing of the
Completion

Process completion

Would be the value
In the process

Process
Prepare a cup of
Coffee

Value = knowing
Us yes

Example of process
Prepare coffee

Maybe daily
From A to B

- Process

Steps in a
Process

Prepare coffee
Example

Familiar

Quickly:

- Us

Example process =

- Prepare coffee

Steps in a
Process
We see

From A to B
We see

- Process

Here another
Technical point

If we prepare
Coffee

Usually we did it
Before

- So familiar

We can know how
To prepare coffee

So it would be
Us

Making something with
A plan

We can see in the
Example

- Prepare coffee

Idea of order
Prepare coffee

Steps in a
Process

- Steps in order

Remember

start
middle
finish

Steps in a
Process

- Steps in order

We use this
Steps in order

To consider doing
Any action or project

We often have some
Kind of plan

Think
Steps in order

We see this

Many things we do
We already know
How to do

Remembering tasks
Like example

Preparing a cup of
Coffee

Our Plan
With steps

For preparing coffee
We would already
Have

A plan from time
Before

When we had prepared
Coffee before

Good

Review

So we see:

- Example

Prepare a cup of
Coffee

Maybe daily
Us yes

Doing things like
Process

Steps in a
Process

- Steps in order

Often with a
Plan

Us yes ok

- Then we see

We see idea
From A to B

Steps in a
Process

- Steps in order

Like a plan

Us going
From A to B

Following steps
From A to B

To completion
Finish

Each task
Start to finish

Us daily
Doing things

Article is:
